Indigenous Rights in Scandinavia Christina Allard, Susann Funderud Skogvang, 2014 *Indigenous Rights in Scandinavia* Asst Prof Susann Funderud Skogvang, Dr Christina Allard, 2015-12-28 This book contributes to the international debate on Indigenous Peoples Law containing both in depth research of Scandinavian historical and legal contexts with respect to the Sami and demonstrating current stances in Sami Law research In addition to chapters by well known Scandinavian experts the collection also comments on the legal situation in Norway Sweden and Finland in relation to other jurisdictions and indigenous peoples in particular with experiences and developments in Canada and New Zealand The book displays the current research frontier among the Scandinavian countries what the present day issues are and how the nation states have responded so far to claims of Sami rights The study sheds light on the contrasts between the three countries on the one hand and between Scandinavia Canada and New Zealand on the other showing that although there are obvious differences for instance related to colonisation and present legal solutions there are also shared experiences among the indigenous peoples and the States Filling a gap in an under researched area of Sami rights this book will be a valuable resource for academics researchers and policy makers with an interest in Indigenous Peoples Law and comparative research

Indigenous Rights in Modern Landscapes Lars Elenius, Christina Allard, Camilla Sandström, 2016-11-10 This book examines the diverse use of Indigenous customary rights in modern landscapes from a multidisciplinary perspective Divided into two parts the first deals explicitly with Sami customary rights in relation to nature conservation in the Nordic countries and Russia from a legal and historical perspective The authors investigate how longstanding Sami customary territorial rights have been reassessed in the context of new kinds of legislation regarding Indigenous people They also look at the ideas behind the historical models of nature conservation The second part deals with the ideas and implementation of new kinds of postcolonial models of nature conservation The case of the Sami is compared with other Indigenous people internationally with cases from Australia New Zealand Canada and India The work investigates how the governance of protected areas has been influenced by the principles of equality and positive discrimination and how it has affected the possibilities of establishing adaptive co management arrangements for specific areas How the legal situation of Indigenous peoples has been recognised in an international context is also investigated The volume provides a multidisciplinary analysis of how the customary livelihood of Indigenous people has adapted to modern industrialised landscapes and also how postcolonial approaches have contributed to global changes of Indigenous rights and nature conservation models
