Power Transition and International Order in Asia Peter Shearman, 2013-09-23 This edited volume examines how the transition and diffusion of power in global politics is impacting on stability and order in Asia Both in the academic field of International Relations IR and among policymakers the big

question today concerns the rise of China the relative decline of the United States and the increasing importance of Asia in global politics The level of impact the international power transition will have in the region remains unclear but observers agree that Asia is a potential tinderbox for crises and conflict This volume brings together leading scholars from around the world to assess current thinking in IR on these issues The authors apply appropriate theories and methods of analysis in their specific area of expertise to examine the likely effects of the changing global power distribution on Asia There is also said to be an ongoing diffusion of power away from states to non state actors in the region hence in addition to examining changing relations between the Great Powers the book will also assess the implications that other actors from terrorist groups insurgents and organised crime syndicates could have on stability and order This book will be of much interest to students of Asian politics security studies diplomacy and international relations

Multidisciplinary Research Area in Arts, Science & Commerce (Volume-2) Chief Editor- Biplab Audhya, Editor- Dr. Jasmina B.Solanki, Dr. M. Maria Sherine Sweeja, Dr.

Devimeenakshi K, Dr. Nagaraj G U, Dr. Anushka Gkl Jain, Haridasan L,2025-06-09 **If You Meet George Herbert on the Road, Kill Him** Justin Lewis-Anthony,2009-08-01 At a time of uncertainty for the Church this robust challenge to an outmoded style of ministry offers realistic encouragement for the future The book s deliberately provocative title echoes If you meet the Buddha on the road kill him its thesis is that the shadow of George Herbert s parish ministry lingers still in the Church of England placing an impossible burden of unreasonable expectations upon today s parish clergy The author sets out realistically to assess the context of Herbert s life and to explore the difficulties of parish life today he concludes by outlining a more sustainable pattern for the future This is a book of the long view In looking at the status and role of parish clergy it draws on the work of historians social anthropologists psychologists and theologians and presents their ideas in a readable and passionate style It is neither a jeremiad nor pollyanna ish in its analysis or its prescriptions but rather sees the future strength of the parochial clergy to be found in a recovery of historic renewed understandings of priestly ministry In a climate of such uncertainty for the future of the church it will be an encouragement for priest and people and welcomed by both

Multilateral Asian Security Architecture See Seng Tan,2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia s multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN s significance to the successes and failures of Asia s multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia s regional architecture the fact remains that the countries considered

here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally

The Cult of the Presidency Gene Healy, 2024-09-10 The modern presidency has become the central fault line of polarization in America because the president increasingly has the power to reshape vast swaths of American life In *The Cult of the Presidency* Gene Healy argues that We the People are to blame Americans on each side of the red blue divide demand a president who can create jobs teach our children well tend to the national soul and vanquish their culture war enemies Our political culture has invested the office with preposterously vast responsibilities and as a result the officeholder wields powers that no human being ought to have In a new preface to the 2024 edition Healy argues that the rise of partisan hatred lends new urgency to the cause of re limiting executive power In the years since *Cult* was first published politics has gone feral with polls showing that substantial majorities of Democrats and Republicans view members of the other party as a serious threat to the United States and its people At the same time the most powerful office in the world has grown even more so That s raised the stakes of our political differences dramatically the issues that divide us most are now increasingly settled by whichever party manages to seize the office In our partisan myopia we ve laid down the infrastructure for autocratic rule and sectarian warfare making the presidency powerful enough to tear the country apart Interweaving historical scholarship legal analysis and trenchant cultural commentary *The Cult of the Presidency* traces America s decades long drift from the Framers vision for the presidency a constitutionally constrained chief magistrate charged with faithful execution of the laws Restoring that vision will require a Congress and a Court willing to check executive power but Healy emphasizes that there is no simple legislative or judicial fix Unless Americans change what we ask of the office no longer demanding what we should not want and cannot have we ll get what in a sense we deserve
