*American Small Sailing Craft, Their Design, Development, and Construction* Howard Irving Chapelle, 1951 From the author of *Yacht Designing and Planning* and *Boatbuilding* the definitive history and survey of the great classic American small sailing craft AMERICAN SMALL SAILING CRAFT: THEIR DESIGN, DEVELOPMENT, AND CONSTRUCTION. HOWARD IRVING CHAPELLE, 1970 American Small Sailing Craft Howard Irving Chapelle, 1951 Manual Arts and Crafts Helen MacPherson Thompson, 1965 Mid-Currituck Bridge Study, Currituck and Dare Counties, 2012 *The Indianization of Lewis and Clark* William R. Swagerty, 2012-10-29 Although some have attributed the success of the Lewis and Clark expedition primarily to gunpowder and gumption historian William R Swagerty demonstrates in this two volume set that adopting Indian ways of procuring processing and transporting food and gear was crucial to the survival of the Corps of Discovery The Indianization of Lewis and Clark retraces the well known trail of America s most famous explorers as a journey into the heart of Native America a case study of successful material adaptation and cultural borrowing Beginning with a broad examination of regional demographics and folkways Swagerty describes the cultural baggage and material preferences the expedition carried west in 1804 Detailing this baseline reveals which Indian influences were already part of Jeffersonian American culture and which were progressive adaptations the Corpsmen made of Indian ways in the course of their journey Swagerty s exhaustive research offers detailed information on both Indian and Euro American science medicine cartography and cuisine and on a wide range of technologies and material culture Readers learn what the Corpsmen wore what they ate how they traveled and where they slept and with whom before during and after the return Indianization is as old as contact experiences between Native Americans and Europeans Lewis and Clark took the process to a new level accepting the hospitality of dozens of Native groups as they sought a navigable water route to the Pacific This richly illustrated interdisciplinary study provides a unique and complex portrait of the material and cultural legacy of Indian America offering readers perspective on lessons learned but largely forgotten in the aftermath of the epic journey Pattern in the Material Folk Culture of the Eastern United States Henry Glassie, 1971-10 Filled with brilliant insights and tantalizing leads The Emerald Mile Kevin Fedarko, 2014-07 The epic story of the fastest boat ride in history on a hand built dory named the Emerald Mile through the heart of the Grand Canyon on the Colorado river The Encyclopedia of North American Colonial Conflicts to 1775: A-K, 2008 Covers all major wars and conflicts in North America from the late 15th to mid 18th centuries with discussions of key battles diplomatic efforts military technologies and strategies and tactics E xplores the context for conflict with essays on competing colonial powers every major Native American tribe all important political and military leaders and a range of social and cultural issues Publisher s Web site **The Merchant Ship in the British Atlantic, 1600-1800** Phillip Reid, 2020-04-14 In *The Merchant Ship in the British Atlantic 1600 1800* Phillip Reid refutes the long held assumption that merchant ship technology in the British Atlantic during the two centuries of its

development was static for all intents and purposes and that whatever incremental changes took place in it were inconsequential to the development of the British Empire and its offshoots Drawing on a unique combination of evidence from both traditional and unconventional sources Phillip Reid shows how merchants shipwrights and mariners used both proven principles and adaptive innovations in hulls rigs and steering systems to manage high physical and financial risks Listen also to the podcast where the author is interviewed about the book for New Books Network and the podcast with Liz Covart for Ben Franklin s World by [clicking here](#)
