Built Environment and Property Management Emerald Group Publishing Limited, 2015-10-28 Built Environment and Property Management A Focus on Australia is a unique collection of articles that represent the highest level of scholarship in the field identify emerging themes These include Corporate social responsibility Green buildings Management efficiency The articles provide insight access to the thought leaders of today

Green Building in Developing Countries Zhonghua Gou, 2019-07-30 The book reveals how green buildings are currently being adapted and applied in developing countries It includes the major developing countries such as China Indonesia Malaysia Thailand Pakistan Cambodia Ghana Nigeria and countries from the Middle East and gathers the insights of respected green building researchers from these areas to map out the developing world's green building revolution The book highlights these countries contribution to tackling climate change emphasising the green building benefits and the research behind them The contributing authors explore how the green building revolution has spread to developing countries and how national governments have initiated their own green building policies and agendas They also explore how the market has echoed the green building policy and how a business case for green buildings has been established In turn they show how an international set of green building standards in the form of various techniques and tools has been incorporated into local building and construction practices In closing they demonstrate how the developing world is emerging as a key player for addressing the energy and environmental problems currently facing the world The book helps developers designers and policy makers in governments and green building stakeholders to make better decisions on the basis of global and local conditions It is also of interest to engineers designers facility managers and researchers as it provides a holistic picture of how the industry is responding to the worldwide call for greener and more sustainable buildings

Industrial Property Bob Thompson, 2005

Facility Management Practices Solomon Pelumi Akinbogun, Clinton Oluwaseun Akinbogun, 2024-10-30 This book explores the management of public facilities and the wider issues around it with examples from educational health facilities and public spaces Human activities in every economy are require facilities that must be effectively managed for optimal performance Facility management in the public and private sector in developing countries requires close examination to explain the reasons for things go wrong From the economist's point of view some facilities are better provided by public sector to maintain inclusivity and protect the social welfare of vulnerable people For example in Nigeria a good number of public facilities such as schools and health facilities are under performing because of poor and ineffective management This provides an opportunity for the private sector However a

majority of the population remains deprived of access because of lack of affordability The research in this book was carried out to assess what could be done to ensure that essential services are not left entirely in the private sector and scope out possible synergies between the public and private The book is useful to policy makers at all levels of the public and private sectors

From Collective Beings to Quasi-Systems Gianfranco Minati, Eliano Pessa, 2018-01-29 This book outlines a possible future theoretical perspective for systemics its conceptual morphology and landscape while the Good Old Fashioned Systemics GOF era is still under way The change from GOF to future systemics can be represented as shown in the book title by the conceptual change from Collective Beings to Quasi systems With the current advancements problems and approaches occurring in contemporary science systemics are moving beyond the traditional frameworks used in the past From Collective Beings to Coherent Quasi Systems outlines a conceptual morphology and landscape for a new theoretical perspective for systemics introducing the concept of Quasi systems Advances in domains such as theoretical physics philosophy of science cell biology neuroscience experimental economics network science and many others offer new concepts and technical tools to support the creation of a fully transdisciplinary General Theory of Change This circumstance requires a deep reformulation of systemics without forgetting the achievements of established conventions The book is divided into two parts Part I examines classic systemic issues from new theoretical perspectives and approaches A new general unified framework is introduced to help deal with topics such as dynamic structural coherence and Quasi systems This new theoretical framework is compared and contrasted with the traditional approaches Part II focuses on the process of translation into social culture of the theoretical principles models and approaches introduced in Part I This translation is urgent in post industrial societies where emergent processes and problems are still dealt with by using the classical or non systemic knowledge of the industrial phase
