Watercolor Painting with Passion! Alvaro Castagnet,2001 The author shows how it is possible to transcend the principles of technique and take painting to a higher plateau where passion is awakened every time a brush is picked up Includes generating ideas presenting a unified message achieving volume and depth injecting emotion manipulating light and dark interpreting and abstracting developing personal style pulling the painting together Cover Beyond the Architect's Eye Mary N. Woods,2013-12-11 Typical architectural photography freezes buildings in an ideal moment and rarely captures what photographer Berenice Abbott called the medium's power to depict how the past jostled the present In Beyond the Architect's Eye Mary N Woods expands on this range of images through a rich analysis that commingles art amateur and documentary photography genres usually not considered architectural but that often take the built environment as their subject Woods explores how photographers used their built environment to capture the disparate American landscapes prior to World War II when urban and rural areas grew further apart in the face of skyscrapers massive industrialization and profound cultural shifts Central to this study is the work of Alfred Stieglitz Frances Benjamin Johnston and Marion Post Wolcott but Woods weaves a wider narrative that also includes Alice Austen Gertrude K sebiar Berenice Abbott Margaret Bourke White Helen Levitt Lisette Model Louise Dahl Wolfe Morgan and Marvin Smith Eudora Welty Samuel Gottscho Walker Evans Max Waldman and others In such disparate places as New York City the rural South and the burgeoning metropolis of Miami these unconventional architectural photographers observed buildings as deeply connected to their context Whereas Stieglitz captured New York as the quintessential modern urban landscape in the period the South was its opposite a land supposedly frozen in the past Yet just as this myth of the Old South crystallized in photographs like Johnston

s a New South shaped by popular culture and modern industry arose Miami embodied both of these visions In Wolcott s work agricultural fields where stoop labor persisted were juxtaposed with Art Deco hotels a popular modernism of the machine age that remade Miami Beach into a miniaturized Manhattan on the beach Beyond the Architect s Eye is a groundbreaking study that melds histories of American art cities and architecture with visual studies of landscape photography and cultural geography
