Buddlejas Royal Horticultural Society Plant Collector Guide:

Buddlejas David D. Stuart, 2006 This authoritative book provides the first comprehensive coverage of the popular and varied genus *Buddleja*. *Buddlejas* come in a huge range of shapes and colors and their tolerance of drought, many soil conditions and common pests make them wonderful garden plants. This is an ideal book for collectors and enthusiasts as well as wildlife and natural style gardeners. *The Plantsman*, 2006 **Common Ground** Rob Cowen, 2016-11-02 All too often we think of nature as something distinct from ourselves, something to go and see, a place that's separate from the ordinary modern world in which we live and work. But if we take the time to look, we soon find that's not how nature works. Even in our parceled-out, paved-over urban environs, nature is all around us; it is in us. It is us. That's what Rob Cowen discovered after moving to a new home in northern England. After ten years in London, he was suddenly adrift, searching for a sense of connection. He found himself drawn to a square-mile patch of waste ground at the edge of town. Scrappy weed-filled, heart-shaped tangle of land was the very definition of overlooked, a thoroughly in-between place that capitalism no longer had any use for, leaving nature to take its course. Wandering its meadows, woods, hedges, and fields, Cowen found it was also a magical, mysterious place, haunted and haunting, abandoned but wildly alive, and he fell in fascinated love. *Common Ground* is a true account of that place and Cowen's transformative journey through its layers and lives, but it's much more too. As the land's stories intertwine with events in his own life, and he learns he is to become a father for the first time, the divisions between human and nature begin to blur and shift. The place turns out to be a mirror, revealing what we are, what we're not, and how those two things are ultimately inseparable. This is a book about discovering a new world, a forgotten world on the fringes of our daily lives, and the richness that comes from uncovering the stories and lives animal and human contained within. It is an unforgettable piece of nature writing, part of a brilliant tradition that stretches from Gilbert White to Robert Macfarlane and Helen Macdonald. I am dreaming of the edge land again, Cowen writes. Read *Common Ground* and you too will be dreaming of the spaces in between and what, including us, thrives there. [SIDA, Contributions to Botany](#), 2006 [RHS The Garden Anthology](#) Ursula Buchan, 2014-10-02 An anthology of the best garden writing from the pages of *The Garden*, the magazine of the Royal Horticultural Society. As well as revealing key moments from a time of intense change, this anthology paints a rich and intriguing picture of what gardening means today. The writers tell of plant hunting and new gardening practices, fashion and growing food, whilst shedding light on the inner landscape of the thoughtful gardener. Collected and curated by Ursula Buchan herself, an anthologist, *The Garden Anthology* presents a narrative of thoughts and opinions for keen gardeners to help navigate the gardening year and comprises the best writing from more than the last 100 years. This 320-page reading book includes short essays, opinions, thoughts, and excerpts from 80 garden writers and designers, including James Wong, Sir Roy Strong, Helen Dillon, Anna Pavord, E. A. Bowles, Gertrude Jekyll, John Brookes, Tim Richardson, Joy Larkcom, Hugh Johnson, Nigel Slater, Lia Leendertz, Ursula Buchan, Nigel Colborne, and Mary Keen, under the universally appealing subjects of the
