Building Bridges A Guide To Optimizing Physician Hospital Relationships:

Building Bridges Ted Hamilton, 2019-06-10 Provides a stimulating glimpse at promising future directions in physician engagement and physician health using case studies from the AdventHealth hospital system Written by a medical doctor who is also a healthcare administrator Foreword by Harold G Koenig MD *How To Turn a Healthcare Crisis Into a Health Care Opportunity* Stephanie Lind, Susan Chase, 2014-10-13 Today we are in a healthcare crisis All around the industrialized world people are struggling with declining health From childhood obesity to the multiple health related needs and concerns of an aging population millions need help understanding managing or even reversing their maladies Hospitals are essential of course but most are set up for episodic care not long term disease management or continuous health improvement So healthcare organizations civic leaders church leaders and philanthropic groups wonder what can be done to help In this timely publication authors Stephanie Lind of Florida Hospital and Dr Susan Chase of the University of Central Florida share important insights and ideas based on a three year pilot project involving Faith Community Nurses Conducted in five Central Florida churches the pilot sought to help congregations establish or grow an existing health ministry team The work was accomplished through a partnership between Florida Hospital and the Winter Park Health Foundation In these pages you ll discover the project goals the methodology and processes used and how others can take what was learned and do something similar or better The project described in this report was one among many of Florida Hospital s ongoing efforts to help people understand how practicing the fundamentals of whole person health aids in the prevention of disease and in recovery following an illness I believe the authors have done a remarkable job of demonstrating how hospitals churches and Faith Community Nurses can positively affect the health of entire communities playing a part in transforming our healthcare crisis into a health caring opportunity Assertiveness in the Health Domain Susana Castaños-Cervantes, Connie Atristain-Suárez, 2025-04-25 This comprehensive guide offers invaluable tools and strategies for educators parents caregivers and health professionals to cultivate assertive skills enhance the quality of care and improve teamwork and interpersonal relationships in health related environments and educational institutions **Where Does It Hurt?** Jonathan Bush, Stephen Baker, 2014-05-15 A bold new remedy for the sprawling and wasteful health care industry Where else but the doctor s office do you have to fill out a form on a clipboard Have you noticed that hospital bills are almost unintelligible except for the absurdly high dollar amount Why is it that technology in other industries drives prices down but in health care it s the reverse And why in health care is the customer so often treated as a mere bystander and an ignorant one at that The same American medical establishment that saves lives and performs wondrous miracles is also a 2.7 trillion industry in deep dysfunction And now with the Affordable Care Act Obamacare it is called on to extend full benefits to tens of millions of newly insured You might think that this would leave us with a bleak choice either to devote more of our national budget to health care or to make do with less of it But there s another path In this provocative book Jonathan Bush cofounder and CEO

of athenahealth calls for a revolution in health care to give customers more choices freedom power and information and at far lower prices With humor and a tell it like it is style he picks up insights and ideas from his days as an ambulance driver in New Orleans an army medic and an entrepreneur launching a birthing start up in San Diego In struggling to save that dying business Bush s team created a software program that eventually became athenahealth a cloud based services company that handles electronic medical records billing and patient communications for more than fifty thousand medical providers nationwide Bush calls for disruption of the status quo through new business models new payment models and new technologies that give patients more control of their care and enhance the physicianpatient experience He shows how this is already happening From birthing centers in Florida to urgent care centers in West Virginia upstarts are disrupting health care by focusing on efficiency innovation and customer service Bush offers a vision and plan for change while bringing a breakthrough perspective to the debates surrounding Obamacare You ll learn how Well intended government regulations prop up overpriced incumbents and slow the pace of innovation Focused profit driven disrupters are chipping away at the dominance of hospitals by offering routine procedures at lower cost Scrappy digital start ups are equipping providers and patients with new apps and technologies to access medical data and take control of care Making informed choices about the care we receive and pay for will enable a more humane and satisfying health care system to emerge Bush s plan calls for Americans not only to demand more from providers but also to accept more responsibility for our health to weigh risks and make hard choices in short to take back control of an industry that is central to our lives and our economy
