Basic Instincts Human Behaviour And The New Economics:

The Law of Globalization Laurence Boulle, 2009-01-01 There is a growing clamour particularly from the main beneficiaries of globalization that rules need to be established to govern the international economy with a specific focus on questions such as copyright violations trade sanctions and protections for foreign investment Those who perceive they are disadvantaged by globalization demand other legal protections in relation to employment cultural traditions and the environment

this book shows some of these may no longer be relevant and appropriate for marketers in today's consumer environment Mike Johnston CEO Dairy Council of Northern Ireland and former Chairman of the Chartered Institute of Marketing Senior marketers like those who make up the membership of the Marketing Society hone the methods and techniques they favour as their career develops Laurie Young clearly did that and an experienced voice shines through this critique It is heartening to find that so many concepts have a long history of producing real value for businesses but alarming to find so many of the theorists favourites to be so groundless Hugh Burkitt CEO The Marketing Society
