Beginning Statistics An Introduction For Social Scientists

Matthew David, Carole D Sutton

Beginning Statistics An Introduction For Social Scientists:

Beginning Statistics Liam Foster,Ian Diamond,Julie Banton,2014-11-17 In the Second Edition of this bestselling textbook the authors use real world examples to introduce basic principles in statistics with no prior knowledge or experience assumed With an emphasis on describing concepts showing through example and illustrating points with graphs and displays this book will provide readers with a step by step introduction to using statistics Chapters address the following questions Why bother learning statistics in the first place and are they relevant to real life How do I make sensible tables and informative graphs What are descriptive and inferential statistics and how are they used What are regression and correlation anyway

Beginning Statistics Ian Diamond,Julie Jefferies,2013-02-26 The clarity simplicity and use of many practical examples makes this book very useful primarily for under and postgraduate students Journal of Biosocial Science With an emphasis on description examples graphs and displays rather than statistical formulae this book is the ideal introductory guide for students across the social sciences It shows how all students can understand the basic ideas of statistics at a level appropriate with being a good social scientist The authors explain the right ways to present data how to describe a set of data using summary statistics and how to infer what is going on in a population when all you have to go on is the sample The book uses small data sets to help students understand the basic principles and no mathematics or statistical background is assumed

Your Undergraduate Dissertation in Health and Social Care Nicholas Walliman,Jane Appleton,2009-08-05 This title provides a practical step by step guide to both the theoretical and practical aspects of the process of doing an undergraduate dissertation equipping the reader with all the skills necessary to plan conduct and write up a research project successfully
