Behavior Analysis and Therapy in Nursing Homes Duane A. Lundervold, Lewis M. Lewin, 1992-01-01 Handbook of Clinical Behavior Therapy with the Elderly Client Patricia A. Wisocki, 2013-11-21 Although we speak of the elderly as if there were one body of people with common characteristics older adults are more heterogeneous than any other population People over the age of 65 are also the fastest growing segment of the population in the United States currently numbering 25 million The majority of older adults reside in their communities a small fraction of them are cared for in institutions Most may expect to experience some kind of physical impairment Approximately a quarter of the population may expect to suffer a mental health impairment While traditional therapies have not been especially effective for older adults behavior therapy has shown exceptional promise as a treatment modality This book presents a comprehensive explication of the relatively new field of behavioral gerontology It was written for the clinician interested in the interaction of medical environmental and psychological variables and their effects on treatment of elderly clients and for the researcher who will be looking to extend knowledge about interventions with this population It will be useful for the graduate student in clinical psychology as well as the experienced clinician who will want to include the elderly in his or her therapeutic population *Behavior Analysis and Therapy in Residential Programs* Frederick J. Fuoco, Walter P. Christian, 1986 *Geropsychological Interventions in Long-Term Care* Lee Hyer, PhD, ABPP, Robert C. Intrieri, PhD, 2006-02-22 Older people are entering nursing homes later and sicker than ever before thus presenting as more physically fragile and complex residents and requiring more advanced care and treatment To this end Hyer and Intrieri have gathered together a group of health care professionals who are genuinely dedicated to the care and research of long term care LTC environments This group seeks to push the envelope for improved use of professional time effort and input and in this remarkable book share their ideas with you By applying the Selective Optimization with Compensation SOC model to various care settings the editors are able to examine current LTC practices and existing psychosocial issues confronting older LTC patients either support or challenge them and offer suggestions and strategies such as Cognitive Behavior Therapy for improving the LTC system and residents physical psychological emotional and social health This book provides insight on the psychological issues facing long term care residents for a plethora of health care professionals including Physicians and geriatricians who care for older adults in the LTC system Nurses and geriatric nurse specialists Social workers Activity coordinators Physical occupational and speech therapists within an LTC setting who are seeking ways to explain behavior and empower the residents they care for Psychologists and psychiatrists whose practice focuses on older adults How to Think Like a Behavior Analyst Jon Bailey, Mary Burch, 2013-04-15 How to Think Like a Behavior Analyst is a revolutionary resource for understanding complex human behavior and making potentially significant quality of life improvements Behavior analysts offer a worldview of the human condition different than almost any other professional perspective To a behavior analyst human behavior is largely learned and subject to change if the right

variables are put into play This is an empowering outlook providing an opportunity for individuals to analyze the actions of those around them and an understanding of why others exhibit such behavior Practical clear and direct this book addresses basic questions such as how behavior analysis is different from psychotherapy what analysis involves and the meaning of evidence based treatment A chapter on Applications presents tips on using behavioral procedures to improve lives and deal with others and articulates how behavioral procedures are used in community settings In question and answer format the text thoroughly covers 50 frequently asked questions about behavior analysis in an educational and entertaining manner It was developed out of questions raised by students in behavior analysis classes over the last 35 years as well as questions raised by consumers of behavior analysis services This text is written for all professionals concerned with behavior including undergraduate students in psychology and behavior analysis parents teachers employers and employees The book can easily be used as a supplement to primary texts in introductory psychology courses and the exercises that follow each question can be used to stimulate lively discussion in role play and other active learning situations
