

Behavioral Interventions With Brain Injured Children Critical Issues In Neuropsychology

Léo Pomar

A decorative graphic element consisting of a light blue horizontal bar with a rounded right end, and a red circular shape with a gradient, partially overlapping the bar's end.

Behavioral Interventions With Brain Injured Children Critical Issues In Neuropsychology:

Behavioral Interventions with Brain-Injured Children Arthur MacNeill Horton, 1994 This is the first volume to integrate neuropsychology and behavior therapy into a comprehensive cohesive assessment and treatment methodology Of particular value is a discussion of how to integrate multiple sources of information and criteria for selecting treatment techniques The work will appeal to a wide audience including neuropsychologists neurologists psychiatrists clinical psychologists and special educators

Handbook of Neuropsychology and Aging Paul David Nussbaum, 2013-11-11 Leaders in neuropsychology behavioral neurology speech and language science neuropsychiatry and many other disciplines contribute to this volume the first comprehensive review of knowledge in the field They discuss a wide range of disorders including areas of recent research such as frontal lobe dementias and the neuropsychological aspects of late life depression and clinical problems typically given insufficient consideration in other works such as seizure disorder head injury and mental retardation Normal aging is also covered in detail and assessment procedures and clinical interventions are given thorough treatment Other highlights include discussions of guardianship and caregiving personality and behavior psychotic disorders Alzheimer s and head trauma

International Handbook of Neuropsychological Rehabilitation Anne-Lise Christensen, Barbara P. Uzzell, 2013-04-17 I am extraordinarily pleased to have been asked by Drs Christensen and Uzzell to write the foreword for this handbook This handbook is the result of the most recent of a series of conferences held in Copenhagen Denmark at five year intervals over the past 15 years under the guidance and leadership of Dr Anne Lise Christensen and under the sponsorship of the Egmont Foundation which must be acknowledged as well for its constant support of this international effort The participants in these conferences are all internationally renowned clinicians and scientists These experts represent not only the area of neuropsychology but disciplines ranging from fundamental neurophysiology and neuroanatomy to medical and financial perspectives on neurological injury and recovery The participants have to a significant extent remained remarkably constant over this period and this has allowed increasing intimacy among them both professionally and personally One felicitous result of this camaraderie has been that the conferences have evolved with an increased focus on topics of the broadest interest across disciplines One aspect of such a continuing dialogue across disciplines is that specific areas of mutual interest are explored in depth allowing cross fertilization of ideas to occur

A Practical Guide to Head Injury Rehabilitation Michael D. Wesolowski, Arnie H. Zencius, 1994 The current volume applies behavioral techniques to the inpatient postacute rehabilitation of patients who have suffered traumatic brain injury The authors detail new procedures to alleviate cognitive and behavioral problems and discuss ways to integrate the client his or her family and professionals in the rehabilitation process Clinicians will find the work a unique well rounded guidebook

Contemporary Approaches to Neuropsychological Assessment Gerald Goldstein, Theresa M. Incagnoli, 2013-06-29 This volume reflects in part an update of Clinical Application of Neuropsychological Test Batteries edited by Theresa Incagnoli Gerald Goldstein and Charles

Golden some 10 years ago While the initial concept of the present editors involved doing a straightforward update of each chapter it soon became apparent that the field of clinical neuropsychology had changed so dramatically and rapidly that substantial changes in the outline had to be made It was our view that sufficient interest remained in the standard comprehensive neuropsychological test batteries to make an update worthwhile We asked four senior people to take on this assignment James Moses Jr and Arnold Purisch in the case of the Luria Nebraska Battery and James Reed and Homer Reed for the Halstead Reitan Battery These individuals all have long term associations with these procedures and can be viewed as pioneers in their development However it also seemed to us that there was an increasing interest in the psychometric aspects of the standard procedures and in assessment issues related to the relative merits of using standard or individualized assessment strategies Thus we have chapters by Elbert Russell and Gerald Goldstein that provide discussions of these current methodological and clinical issues During the past 10 years the cognitive revolution has made a strong impact on neuropsychology The interest of cognitive psychologists in brain function has increased dramatically and we now have an active field of cognitive neuropsychology something that was only beginning 10 years ago

The Practice of Forensic Neuropsychology Robert J. McCaffrey, Arthur D. Williams, Jerid M. Fisher, Linda C. Laing, 2004-05-31 The Practice of Forensic Neuropsychology focuses the awareness of neuropsychologists on the critical areas of forensic practice that should be considered during each phase of a scientific neuropsychological examination investigation Written by three eminent neuropsychologists and a seasoned attorney this important book contains practical information and guidelines for conducting valid and reliable forensic neuropsychological examinations that aid the trier of fact in both civil and criminal settings The authors also include vital information to help attorneys evaluate neuropsychological claims put forth by their own or opposing experts

Neuropsychological Toxicology David E. Hartman, 1995-10-31 Greatly revised the Second Edition presents an extended survey of this rapidly growing field The book reviews the effects of industrial and pharmaceutical chemicals on human behavior cognitive function and emotional status Features include two new chapters addressing key forensic issues and recent views on multiple chemical sensitivity sick building syndrome and psychosomatic disorders current data on NIOSH and OSHA exposure levels for industrial toxins and enhanced coverage of testing methods studies of PET SPECT and BEAM imaging applied to neurotoxic exposure

Clinical Neuropsychological Assessment Robert L. Mapou, Jack Spector, 1995-02-28 This text offers clinicians and students an introduction to cognitively based assessment methods Each chapter is richly illustrated with case examples and includes an overview a summary of empirical findings relevant to clinical assessment and a detailed description of a technique

Handbook on the Neuropsychology of Traumatic Brain Injury Mark Sherer, Angelle M. Sander, 2014-05-17 This book collects and synthesizes the latest thinking on the condition in its variety of cognitive and behavioral presentations matched by a variety of clinical responses Acknowledging the continuum of injury and the multi stage nature of recovery expert contributors review salient research data and offer

clinical guidelines for the neuropsychologist working with TBI patients detailing key areas of impairment brief and comprehensive assessment methods and proven rehabilitation strategies Taken together these chapters provide a framework for best serving a wide range of TBI patients including children elders and patients in multidisciplinary settings and model treatment that is evidence based and relevant A sample of the topics featured in the Handbook Bedside evaluations in TBI Outcome assessment in TBI Collaborating with family caregivers in the rehabilitation of persons with TBI Behavioral assessment of acute neurobehavioral syndromes to inform treatment Pediatric TBI assessment outcomes intervention Special issues with mild TBI in veterans and active duty service members Expanding professional knowledge on a topic that continues to grow in importance the Handbook on the Neuropsychology of Traumatic Brain Injury is a premier resource not only for neuropsychologists but also for other professionals in cognitive care and trainees entering the field

Practitioner's Guide to Clinical Neuropsychology Robert M. Anderson Jr.,2012-12-06 The author has written an easily accessible summary of neuropsychological tests neuropsychiatric disorders and the relationships of test performance to disorder and treatment strategy This ready reference provides neuropsychologists with an understanding of the medical context within which neuropsychological evaluation and psychosocial therapy takes place
