New Perspectives for Environmental Policies Through Behavioral Economics Frank Beckenbach, Walter Kahlenborn, 2015-09-25 This book presents essential insights on environmental policy derived from behavioral economics The authors demonstrate the potential of behavioral economics to drive environmental protection and to generate concrete proposals for the efficient design of policy instruments Moreover detailed recommendations on how to use nudges and related instruments to move industry and society toward a sustainable course are presented This book addresses the needs of environmental economists behavioral economists and environmental policymakers as well as all readers interested in the intersection between behavioral economics and environmental policy

Routledge Handbook of Policy Design Michael Howlett, Ishani Mukherjee, 2018-07-17 Uniting theoretical bases and advancements in practice the Routledge Handbook of Policy Design brings together leading experts in the academic field of policy design in a pioneering effort of scholarship Each chapter provides a multi topic overview of the state of knowledge on how why where or when policies are designed and how such designs can be improved These experts address how a new emphasis on effective policy design has re emerged in public policy studies in recent years and clarify the role of historical policy decisions policy capacities and government intentions in promoting a design orientation towards policy formulation and policy making more generally They examine many previously unexplored aspects of policy designs and designing activities which focus upon analyzing and improving the sets of policy tools adopted by governments to correct policy problems Ranging from the fundamentals of policy design and its place in greater policy studies to new questions

regarding policy design content and effectiveness to contemporary design trends such as the use of digital tools and big data the Routledge Handbook of Policy Design is a comprehensive reference for students and scholars of public policy public administration and public management government and business **Business, Government and Labor** Linda Y C Lim, 2017-12-07 Business Government and Labor in the Economic Development of Singapore and Southeast Asia analyzes the inter linked and evolving roles of private sector business government public policy and labor markets in the economic development of Singapore and its Southeast Asian neighborhood It does this through 16 essays written by Prof Linda Y C Lim an early and long established scholar of these subjects and published over a 35 year period For Singapore often considered the world s most successful economy the essays highlight the determining role of government s industrial and social policy through to the present day when the growth model of the past faces many external market and domestic resource constraints In the rest of Southeast Asia in contrast the essays explore how private sector business dominated by the locally domiciled ethnic Chinese minority thrived and drove economic growth in underdeveloped markets with imperfect institutions and consider if and how this might change with China s increasing presence in the regional economy A final set of essays analyzes the forces underlying women s employment from labor intensive Southeast Asian export factories in the 1980s to Singapore s foreign labor dependent economy and its current productivity challenges Taken together the essays show how government business and labor interact in the process of economic development The Oxford Handbook of Global Policy and Transnational Administration Diane Stone, Kim Moloney, 2019-01-10 Global policy making is unfurling in distinctive ways above traditional nation state policy processes New practices of transnational administration are emerging inside international organizations but also alongside the trans governmental networks of regulators and inside global public private partnerships Mainstream policy and public administration studies have tended to analyse the capacity of public sector hierarchies to globalize national policies By contrast this Handbook investigates new public spaces of transnational policy making the design and delivery of global public goods and services and the interdependent roles of transnational administrators who move between business bodies government agencies international organizations and professional associations This Handbook is novel in taking the concepts and theories of public administration and policy studies to get inside the black box of global governance Transnational administration is a multi actor and multi scalar endeavour having manifestations depending on the policy issue or problems at the local urban sub regional sub national regional national supranational supra regional transnational international and global scales These scales of local and global are not neatly bounded and nested spaces but are articulated together in complex patterns of policy activity These transnational patterns represent a reinvigoration of public administration and policy studies as the Handbook authors advance their analysis beyond the methodological nationalism of the nation state **Singapore Perspectives 2013** Gillian Koh, 2014 This book focuses on governance or how a society governs itself across the state business and civic sectors in Singapore and how it might evolve

over the next decade Designing Behavioural Insights for Policy Ishani Mukherjee, Assel Mussagulova, 2024-05-16 The diversity of knowledge surrounding behavioural insights BI means in the policy sciences although visible remains under theorized with scant comparative and generalizable explorations of the procedural prerequisites for their effective design both as stand alone tools and as part of dedicated policy toolkits While comparative analyses of the content of BI tools has proliferated the knowledge gap about the procedural needs of BI policy design is growing recognizably as the range of BI responses grows in practice necessitating specific capabilities processes and institutional frameworks to be in place for their design This Element draws on the literature on policy design and innovation adoption to explore the administrative institutional and capacity endowments of governments for the successful and appropriate integration of BI in existing policy frameworks Further we present three illustrative cases with respect to their experience of essential procedural endowments facilitating for the effective integration of BI in policy design Hard Choices Sudhir Thomas Vadaketh, Donald Low, 2014-04-21 Singapore is changing The consensus that the PAP government has constructed and maintained over five decades is fraying The assumptions that underpin Singaporean exceptionalism are no longer accepted as easily and readily as before Among these are the ideas that the country is uniquely vulnerable that this vulnerability limits its policy and political options that good governance demands a degree of political consensus that ordinary democratic arrangements cannot produce and that the country's success requires a competitive meritocracy accompanied by relatively little income or wealth redistribution But the policy and political conundrums that Singapore faces today are complex and defy easy answers Confronted with a political landscape that is likely to become more contested how should the government respond What reforms should it pursue This collection of essays suggests that a far reaching and radical rethinking of the country's policies and institutions is necessary even if it weakens the very consensus that enabled Singapore to succeed in its first fifty years Advanced Introduction to Behavioral Economics John F. Tomer, 2017-09-29 Leading researcher John F Tomer presents an invigorating and concise introduction to behavioral economics that offers essential behavioral theories perspectives trends and developments within this ever evolving discipline
