The Glass Wall Max Egremont, 2025-10-16 Max Egremont author of *Some Desperate Glory* tells stories from the Glass Wall between Europe and Asia Few countries have suffered more from the convulsions and bloodshed of twentieth century Europe than those in the eastern Baltic region Caught between the giants of Germany and Russia on a route across which armies surged or retreated small nations like Latvia and Estonia were for centuries the subjects of conquests and domination as foreign colonizers claimed control of the territory and its inhabitants along with their religion government and culture The Glass Wall features an extraordinary cast of characters contemporary and historical foreign and indigenous who have lived and fought in the Baltic western Europe's easternmost stronghold Too often the destiny of this region has seemed to be to serve as the front line in other people's wars By telling the stories of warriors and victims of philosophers and barons of poets and artists of rebels and emperors and of others who lived through years of turmoil and violence Max Egremont sets forth a brilliant account of a long overlooked region on a frontier whose limits may still be in doubt

The Architecture of Survival Erik Trump, Jake Parcell, 2023-09-05 The Architecture of Survival Setting and Politics in Apocalypse Films offers a compelling exploration of how popular films and TV series from the past two decades use architectural spaces to comment on socio political issues The authors harness varied theoretical perspectives to demonstrate how through set design these works suggest that certain kinds of architecture support human development community and freedom while other kinds separate us from our fellow humans and make democratic politics impossible The clean lines of modernist design serve in films such as *Contagion* and *Ex Machina* as a metaphor for the sanitized sterile politics that drive disaster In *The Walking Dead* apocalypse survivors favor traditional architectural styles when rebuilding society a choice that symbolically affirms their democratic principles The massive walls and super gentrification as seen in *Elysium* and *Army of*

the Dead divide humanity with those on one side wielding illegitimate power Empty streetscapes intensify loneliness alienation and the destruction of civil norms Smart cities offering a blend of high tech surveillance and big data erode social capital and community in Her and Transcendence The book concludes with a somewhat hopeful glimpse into architecture s potential to mitigate the catastrophic adverse effects of climate change as seen in films like Zootopia **The Literary Digest**, 1916

Ellie E.M.
