did The book looks at individual incidents and tries to examine the terrorist mindset and their motives for the atrocities which they carried out in the name of their communities It supports the security forces unequivocally but renders criticism where appropriate The book examines the role of the young soldiers from Leeds Liverpool Manchester indeed from every part of the UK from which these young men came It looks at foot patrols riot control and the daily fear and threat under which they operated for their four month or two year tours Read carefully the words of an Irish American who clearly is contemptuous of the way her fellow Americans almost sleepwalked into supporting the IRA from afar with the dollars which they placed so willingly into the NORAD collection jars The level of detail and research the author goes into is phenomenal and demonstrates his commitment to continue telling the story of one of Britain's forgotten wars
