Belarus 50 Manual

Tsagourias, Nicholas, Buchan, Russell

Belarus 50 Manual:

Particle emissions in Belarus and in the Nordic countries: Emission inventories and integrated assessment modelling of black carbon and PM2.5

Kakareka, Sergey, Malchykhina, Hanna, Krukowskaya, Olga, Yaramenka, Katarina, Kindbom, Karin, Mawdsley, Ingrid, Åström, Stefan, Nielsen, Ole-Kenneth, Plejdrup, Marlene, Bak, Jesper, Saarinen, Kristina, Savolahti, Mikko, 2018-10-01 The overall goal of the project is to stimulate decision makers in Belarus to prioritize abatement measures aimed at black carbon in their efforts to reduce emissions of PM2.5 as encouraged in the Gothenburg protocol under the UNECE CLRTAP. To reach this purpose and in order to build up scientific basis necessary for further policy development a comprehensive analysis of PM2.5 and BC emissions emission reduction potentials and cost effective abatement measures in Belarus has been conducted. The report presents two main parts of the conducted analysis: a part focused on the emission inventories and a part summarizing the results of the integrated assessment modelling. The main focus is on analysis for Belarus; however, a range of modelling results have been obtained for the three participating Nordic countries: Denmark, Finland and Sweden. Global Status Report on Road Safety 2018 World Health

Organization, 2019-01-10 The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5-29 years. The burden is disproportionately borne by pedestrians, cyclists and motorcyclists, in particular those living in developing countries. The report suggests that the price paid for mobility is too high, especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives.

Customary International Humanitarian Law Jean-Marie Henckaerts, Louise Doswald-Beck, 2005 In 1996 the International Committee of the Red Cross alongside a range of renowned experts embarked upon a major international study into current state practice in international humanitarian law in order to identify customary law in this area. This book is the result of that study: a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. Given that important treaties in this area have not yet been universally ratified, this is a publication of major importance carried out at the express request of the international community. In so doing, this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts.

Global Human Rights Law Collection, 1999 *GEF Impact Evaluation of the Phaseout of ODS in Countries with Economies in Transition*, **Communication Theory and Application in Post-Socialist Contexts** Michael R. Finch, Marta N. Lukacovic, Maureen C. Minielli, Sergei A. Samoilenko, 2022-03-14 While the broader field of communication studies is gaining more global prominence, this is an era when the underrepresented voices are fortunately becoming more recognized. *Communication Theory and Application in Post-Socialist Contexts* illustrates how Eurasia and Central and Eastern Europe, the post-socialist region, represents a population of more than 400 million who embody a wide array of

communication experiences This book aims to capture significant communication tendencies in several post socialist countries and situate these tendencies within communication theory and application It contains the examples of theory building and adaptation as well as applied projects implemented in national and local contexts Only by inclusive incorporation of the underrepresented experiences in the field s discussions can the communication discipline continue to assert its relevance in and for the global community This book serves as a resource for anyone on the quest of diversifying and globalizing communication studies
