Cusanus Today David Albertson, 2024-06 At the end of the nineteenth century German theologians and philosophers rediscovered the Renaissance cardinal Nicholas of Cusa 1401 1464 Immediately they hailed Cusanus as the first modern thinker a brilliant German rival to the French Descartes But since the founding of the Cusanus critical edition in 1927 up to its conclusion in 2005 historians have gradually learned that Nicholas was more of a medieval preacher and contemplative than a modern philosopher Yet over the same century modern German and French readers were already digging into Nicholas s many works There they encountered an exciting voice with fresh perspectives about God s immanence in the cosmos and the awesome capacities of the human mind Leading philosophers and theologians from Erich Przywara to Karl Jaspers to Hans Georg Gadamer and from Gilles Deleuze to Jacques Lacan to Michel de Certeau found their own thinking stimulated by the cardinal s innovative concepts and interdisciplinary style Even as Nicholas shifted from modern to medieval among historians he was emerging as a contemporary interlocutor for moderns and postmoderns Who could have guessed that the first debate between Jean Luc Marion and Emmanuel Falque would take place over the fifteenth century mystical dialogue *De visione dei* If Meister Eckhart found his moment amidst Deconstruction in prior decades Nicholas of Cusa is our thinker for today His interests anticipate themes in continental philosophy of religion whether alterity invisibility the fold or the icon His habit of interweaving philosophy and theology anticipates current debates on the thresholds of phenomenology Our volume first maps the contours of modern receptions of Nicholas of Cusa in French and German spheres and then beyond Europe to the Americas and Japan It also hosts the next round of engagement by some of today s most original Christian thinkers Emmanuel Falque John Milbank and David Bentley Hart

Imprudence Florence Ethel Mills Young, 2020-09-28 Now came still evening on The fading light warm and faintly glowing from the last rays of the May sun lay with a lingering mellowness upon the fields upon the light green of leafing trees upon a white froth of late blackthorn blossoming in the hedges upon the straggling township nestling in the hollow and upon the tall red brick chimneys dominating Wortheton dominating the souls sheltering beneath the clustering roofs dominating and subjugating brain and mind and body by the might of their crushing omnipotence by the strength of wealth and industry and established order

gaunt chimneys rising out of the green mist of the trees grotesque symbolic landmarks index fingers witnessing in obelisk like ugliness to the power and importance of successful commercial enterprise to the dignity of capital and the drab necessity of labour to in short the disproportionate values in most existing things In the evening light between the lengthening shadows flung by the hedges along the dusty road that leads to Wortheton a girl walked listlessly a girl whose youth was marred by a look of world weary wisdom as much at variance with the young face as the tall brick chimneys with the harmonious beauty of the landscape But for that look and the sullen expression in the brown eyes the girl would have been beautiful as the scene was beautiful and the soft primrose light upon the uplands but the buoyant elasticity the hope and the freshness of youth these were lacking there remained only the pitiful fact that in years the girl was in the springtime of life and in experience more matured As she walked her sullen gaze shifted furtively from the township below to the fair open country growing momentarily dimmer and greyer as the light in the sky paled A gap in the hedge revealed a narrow path between giant elms and a cool shadowed coppice where the bracken fronds rose stiff and closely curled and dark ivy twined thickly about the tree trunks The girl turned aside into the coppice and with the fugitive instinct of hiding from the light penetrated its shaded depths and paused and leaned her arms against the gnarled trunk of a sheltering beech tree and rested her head upon her arms in dry eyed tragic sorrow In a fork of the leafy branches overhead a bird had its nest sitting in brooding satisfaction upon its delicate speckled eggs The intrusion startled it from slumber the round eyes betrayed a suspicious uneasiness and the soft warm body nestled closer over the eggs it protected Quaint thing of feathers and bright eyed watchfulness and maternal instinct with no sense of anything beyond the supreme importance of hatching those little speckled eggs drawing its unconscious comparison by the pride of elemental right to the disproportion in values in this as in other matters happy in its prospective motherhood peering timorously through the green tracery sheltering it home at the unhappy prospective human mothers with resentful eyes lifted curiously to observe its brooding content So still the girl remained gazing upward into the deepening shadows that the little feathered mother lost her fear the sharp anxiety faded from the round bright eyes which never relaxed their unwavering vigilance even when the shadows gathering closer enveloped the still figure of the girl and wrapped her about with a hazy indistinctness that made her one with the landscape a thing of indefinite outline and colouring breathing sentient nature in harmony with inanimate nature immovable and silent as the tree against which she leaned So night settled silently over Wortheton and a wanderer stole home in its kindly shade

Global Hoax Cole Griffin, 2025-03-04 For most of us the Earth is a given something we don't think to question It's just there under our feet as it has always been And why should we The concept of a spherical Earth has been drilled into us from an early age and we are taught to accept it without much thought We look at the stars the oceans and the sky and it all seems to make sense But what if everything we've been taught is wrong This eBook is not a statement of opinion it is a compilation of evidence logic and reason that challenges the conventional narrative about our planet It presents the flat Earth theory not

as a whimsical idea or a conspiracy theory but as a legitimate alternative that is rooted in reality What you will find in these pages is a perspective that dares to question the status quo and seeks the truth behind the great lie that has been perpetuated for centuries The flat Earth theory is not just a belief system it s a movement a growing number of individuals who are waking up to the truth and recognizing the manipulation behind the globe model These individuals are not following a blind ideology but are asking tough questions and looking for answers beyond the mainstream narratives The goal of this book is to provide you with the evidence insights and information that will allow you to question everything you have been told about the world and discover the truth for yourself The mainstream narrative has silenced the flat Earth perspective for years labeling it as absurd outdated and unscientific However a closer examination reveals that many of the arguments for a flat Earth are rooted in solid scientific inquiry ancient wisdom and observations that defy the conventional globe model In the chapters that follow we will explore the evidence from different angles science history religion and personal observation to paint a complete picture of why the flat Earth theory is not only plausible but is supported by facts that have been conveniently overlooked By reading this eBook you are taking the first step on a journey of discovery It s a journey that may challenge everything you thought you knew about our planet and our place in the universe But that s what true learning is all about questioning doubting and seeking the truth The evidence we present here may not convince everyone immediately but it will certainly provoke thought and spark a curiosity that many of us have lost over the years We live in a world where the truth is often hidden beneath layers of misinformation For those brave enough to search for it the truth is always waiting to be uncovered The flat Earth theory is just one piece of that puzzle By exploring this theory you will open your mind to the possibility that the world around you is not what it seems And in doing so you will begin to uncover the greater truths that lie just beyond the surface of our understanding Are you ready to begin this journey If so let s dive in
