**Blue Gemini** Mike Jenne, 2015-05-05 Scott Ourecky wanted to fly he never dreamed he'd end up in a secret military space program The year is 1968 The Cold War is far from over and nuclear annihilation is always only a heartbeat away America is racing the Soviet Union to land men on the moon a war is raging and a pivotal presidential election looms on the horizon A child of the early space age Lieutenant Scott Ourecky joins the Air Force with aspirations of going to flight school A brilliant engineer he repeatedly fails the aptitude test to become a pilot but is selected to work on a highly classified military space program the innocuously named Aerospace Support Project in which Air Force astronauts are slated to fly missions to intercept and destroy suspect Soviet satellites When one of the astronauts in training abruptly falls out of the project Ourecky is asked to fill in for the two man simulated missions and survival training only serving with a headstrong and abrasive test pilot Major Drew Carson until another astronaut can be assigned By far the most proficient pilot assigned to the project Carson has a dangerous propensity to engage in pickup dogfighting sessions while on cross country training flights And although Ourecky was only a temporary placeholder not destined to fly in space he soon finds himself much more involved than he ever anticipated and in deepest peril Based on a real secret space program Blue Gemini combines high altitude action with edge of your seat storytelling to
