Blueprint Small Michelle Kodis, 2003-03-24 When it comes to deciding on the size of a home or living space one question must be asked How much space is enough Americans often relate enough space to dimensions rather than to how a space will really be enjoyed In Blueprint Small Michelle Kodis examines small spaces each 1500 square feet or less from a wide spectrum of locations budgets and individual styles each chosen because they illustrate that scaling back in size doesn't have to mean scaling back in comfort spaciousness or beauty From a sleek urban apartment to a funky mountain home to a renovated beach house Blueprint Small reveals how smaller homes invite rather than overwhelm comfort rather than alienate The projects offered here represent a variety of functions locations and environments combining the technical aspects of building and using small spaces with the stories of the people who live in them Blueprint Small invites you to explore inspiring and imaginative ways to inhabit smaller spaces and still live large Michelle Kodis is a freelance writer and editor based in Telluride Colorado She is the author of *Love Scents* and *The Telluride Cookbook* she has also written for *The San Francisco Examiner* *The Oregonian* and *Backpacker* magazine *Blueprint Reading* Howard Parker Fairfield, 1919
