 Management Kenneth M. York, 2010 Covers critical issues in the effective management of human resources which can be
 used for class discussions or be given as homework problems or used as essay questions on tests **Out of Sight** Erik
 Loomis, 2016-03-01 A provocative analysis of labor globalization and environmental harm by the award winning historian and
 author of A History of America in Ten Strikes In the current state of our globalized economy corporations have no incentive
 to protect their workers or the environment Jobs moves seamlessly across national borders while the laws that protect us
 from rapacious behavior remain bound by them As a result labor exploitation and toxic pollution remain standard practice In
 Out of Sight Erik Loomis a historian of both the labor and environmental movements follows a narrative that runs from the
 1911 Triangle Shirtwaist Factory fire in New York City to the collapse of the Rana Plaza factory outside of Dhaka Bangladesh
 in 2013 He demonstrates that our modern systems of industrial production are just as dirty and abusive as they were during

the Industrial Revolution and the Gilded Age The only difference is that the ugly side of manufacturing is now hidden in faraway places where workers are most vulnerable In this Choice Outstanding Academic Title Loomis shows that the great environmental victories of twentieth century America the Clean Water Act the Clean Air Act the EPA were actually union victories Using this history as a call to action Out of Sight proposes a path toward regulations that follow corporations wherever they do business putting the power back in workers hands The story told here is tragic and important Bill McKibben Erik Loomis prescribes how activists can take back our country for workers and those who care about the health of our planet Senator Sherrod Brown D OH *Antitrust* Amy Klobuchar, 2022-01-18 NATIONAL BESTSELLER Antitrust enforcement is one of the most pressing issues facing America today and Amy Klobuchar the widely respected senior senator from Minnesota is leading the charge This fascinating history of the antitrust movement shows us what led to the present moment and offers achievable solutions to prevent monopolies promote business competition and encourage innovation In a world where Google reportedly controls 90 percent of the search engine market and Big Pharma s drug price hikes impact healthcare accessibility monopolies can hurt consumers and cause marketplace stagnation Klobuchar the much admired former candidate for president of the United States argues for swift sweeping reform in economic legislative social welfare and human rights policies and describes plans ideas and legislative proposals designed to strengthen antitrust laws and antitrust enforcement Klobuchar writes of the historic and current fights against monopolies in America from Standard Oil and the Sherman Anti Trust Act to the Progressive Era s trust busters from the breakup of Ma Bell formerly the world s biggest company and largest private telephone system to the pricing monopoly of Big Pharma and the future of the giant tech companies like Facebook Amazon and Google She begins with the Gilded Age 1870s 1900 when builders of fortunes and rapacious robber barons such as J P Morgan John Rockefeller and Cornelius Vanderbilt were reaping vast fortunes as industrialization swept across the American landscape with the rich getting vastly richer and the poor poorer She discusses President Theodore Roosevelt who during the Progressive Era 1890s 1920 busted the trusts breaking up monopolies the Clayton Act of 1914 the Federal Trade Commission Act of 1914 and the Celler Kefauver Act of 1950 which it strengthened the Clayton Act She explores today s Big Pharma and its price gouging and tech television content and agriculture communities and how a marketplace with few players or one in which one company dominates distribution can hurt consumer prices and stifle innovation As the ranking member of the Senate Judiciary Subcommittee on Antitrust Competition Policy and Consumer Rights Klobuchar provides a fascinating exploration of antitrust in America and offers a way forward to protect all Americans from the dangers of curtailed competition and from vast information gathering through monopolies
