Beginning Mo Pai Nei Kung Expanded Edition:

The Cygnus Key Andrew Collins, 2018-05-15 New evidence showing that the earliest origins of human culture religion and technology derive from the lost world of the Denisovans Explains how G bekli Tepe and the Giza pyramids are aligned with the constellation of Cygnus and show evidence of enhanced sound acoustic technology Traces the origins of G bekli Tepe and the Giza pyramids to the Denisovans a previously unknown human population remembered in myth as a race of giants Shows how the ancient belief in Cygnus as the origin point for the human soul is as much as 45 000 years old and originally came from southern Siberia Built at the end of the last ice age around 9600 BCE G bekli Tepe in southeast Turkey was designed to align with the constellation of the celestial swan Cygnus a fact confirmed by the discovery at the site of a tiny bone plaque carved with the three key stars of Cygnus Remarkably the three main pyramids at Giza in Egypt including the Great Pyramid align with the same three stars But where did this ancient veneration of Cygnus come from Showing that Cygnus was once seen as a portal to the sky world Andrew Collins reveals how at both sites the attention toward this star group is linked with sound acoustics and the use of musical intervals discovered thousands of years later by the Greek mathematician Pythagoras Collins traces these ideas as well as early advances in human technology and cosmology back to the Altai Baikal region of Russian Siberia where the cult of the swan flourished as much as 20 000 years ago He shows how these concepts including a complex numeric system based on long term eclipse cycles are derived from an extinct human population known as the Denisovans Not only were they of exceptional size the ancient giants of myth but archaeological discoveries show that this previously unrecognized human population achieved an advanced level of culture including the use of high speed drilling techniques and the creation of musical instruments The author explains how the stars of Cygnus coincided with the turning point of the heavens at the moment the Denisovan legacy was handed to the first human societies in southern Siberia 45 000 years ago catalyzing beliefs in swan ancestry and an understanding of Cygnus as the source of cosmic creation It also led to powerful ideas involving the Milky Way s Dark Rift viewed as the Path of Souls and the sky road shamans travel to reach the sky world He explores how their sound technology and ancient cosmologies were carried into the West flowering first at G bekli Tepe and then later in Egypt s Nile Valley Collins shows how the ancient belief in Cygnus as the source of creation can also be found in many other cultures around the world further confirming the role played by the Denisovan legacy in the genesis of human civilization

Master of Mo Pai Jim McMillan, 2011-11-21 In his search to transcend the boundaries of our conceived physical reality and deepen his own practice in the martial arts Jim McMillan embarked on an unprecedented journey to first find an obscure teacher to help guide him towards an unknown destination and second to understand the possibilities that are open to anyone with the desire and fortitude to foster a practice while recognizing the limitations being the first Western student to study a lost art engendered This journey is completely unique and the path veers across the martial arts ancient healing techniques and mysticism Jim McMillan encounters and describes these experiences with such humility and gratitude that their incredible nature feels completely appropriate in this world and honestly possible for individuals with the authentic desire to eclipse the confines of preconceived limitations This story serves as a challenge for individuals to both open the mind to a world of possibilities while connecting the body and soul to the energy that surrounds us I accept this invitation and hope others will too Peter Swanz ND FHANP Jim s experience of the Mo Pai is one of magic mystery excitement and betrayal The book provided me with great hope and reconciliation of the true human nature in my heart which I always subconsciously sensed It is also an urgent call in this precarious time for people of all races to unite in finding the lost and forgotten meaning within by becoming aware of what we really are and demanding God s given knowledge to be released by various powers that be without prejudice and for the benefit of all continuing humanity Peter Proksch Mo Pai student
