Beginning classical social theory Marcel Stoetzler, 2017-07-21 *Beginning classical social theory* introduces students and educated general readers to thirteen key social theorists by way of examining a single exemplary text by each author ranging from Comte to Adorno It answers the need for a book that helps students develop the skill to critically read theory Rather than learning how to admire the canonical theorists readers are alerted to the flow of their arguments and the texts contradictions and limitations Having gotten under the skin of one key text by each author will provide readers with a solid starting point for further study The book will be suitable as the principal textbook in social theory modules as much as alongside a more conventional textbook as a recommended additional tool for self study It will appeal to undergraduate and postgraduate students as well as educated lay readers
