Dixon, 2017-01-26 What does Japan s 2011 nuclear accident have in common with the 2005 flooding of New Orleans from Hurricane Katrina This thought provoking book presents a compelling account of recent and historical disasters both natural and human caused drawing out common themes and providing a holistic understanding of hazards disasters and mitigation for anyone interested in this important and topical subject Based on his on the ground experience with several major recent disasters Timothy H Dixon explores the science politics and economics behind a variety of disasters
