Magic, Monsters, and Make-Believe Heroes Douglas E. Cowan, 2019-01-29 Magic Monsters and Make Believe Heroes looks at fantasy film television and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story Why do we tell and retell the same stories over and over when we know they can't possibly be true Contrary to popular belief it's not because pop culture has run out of good ideas Rather it is precisely because these stories are so fantastic some resonating so deeply that we elevate them to the status of religion Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master to Mad Max Douglas E Cowan offers a modern manifesto for why and how mythology remains a vital force today

Flash is thrust into a clash between billionaire power and private security forces on the tranquil island of Kauai. Rival factions Allied Logistics and Omega Security wage war, leaving the Kauai police dangerously outmatched. As violence escalates from Las Vegas to Hawaii's shores, Flash must navigate a web of corrupt power plays and lethal revenge to protect his friends and survive. Knick Knack Paddy Whack. When Flash discovers a body near Kauai's Spouting Horn blowhole, he's drawn into a web of deceit, murder and crime bosses with old grudges. While Detective Sergeant Kellie digs deeper into the case, Flash faces danger from all sides, including a bounty on his head and a showdown with Honolulu's criminal elite. **The Foresight of Dark Knowing** John Jorgensen, 2018-06-30 Korea has long had an underground insurrectionary literature. The best known example of the genre is the Ch'ng Kam nok, a collection of premodern texts predicting the overthrow of the Yi Dynasty 1392-1910 that in recent times has been invoked by a wide range of groups to support various causes and agendas from leaders of Korea's new religious movements formed during and after the Japanese occupation to spin doctors in the South Korean elections of the 1990s to proponents of an aborted attempt to move the capital from Seoul in the early 2000s. Written to inspire uprisings and foment dissatisfaction, the Ch'ng Kam nok texts are anonymous and undated. Most were probably written between the seventeenth and late nineteenth centuries. In his expansive introduction to this first English translation, John Jorgensen notes that the work employs forms or codes of political prediction. Ch' tuch'en Kor toch'am allied with Chinese geomancy fengshui but in a

combination unique to Korea The two types of codes appear to deal with different subjects the potency of geographical locations and political predictions derived from numerological cycles omens and symbols but both emerge from a similar intellectual sphere of prognostication arts that includes divination the Yijing Book of Changes physiognomy and astrology in early China and both share theoretical components such as the fluctuation of ki Ch qi In addition to ambiguous and obscure passages allusion and indirection abound many predictions are attributed to famous people in the distant past or made after the fact to lend the final outcome an air of authority Jorgensen s invaluable introduction contains a wealth of background on the history and techniques of political prediction augury and geomancy from the first century Han dynasty in China to the end of the nineteenth century in Korea providing readers with a thorough account of East Asian geomancy based on original sources This volume will be welcomed by students and scholars of premodern Korean history and beliefs and those with an interest in early arcane sources of political disinformation that remain relevant in South Korea to this day **The Blood**
