

Addiction Recovery Management After Treatment

Completing the course of treatment is a moment of celebration for a person who has been a victim of addiction. But, is that all which leads to the person's overall recovery? **Addiction recovery** is a technique one can rely upon but Certainly not! The road to recovery is a life-long process as it involves a lot of re-adjustments and changes in the person's life after the treatment and continuing along the road for a balanced and healthy life is a constant commitment.

One may believe that, once the treatments and rehabilitation are over, it can cure a person suffering from addiction till the end of his life but it is important to understand that **addiction recovery management** after treatment is even more important for a person's overall recovery. As the person steps out of the treatment room, it's a new life and new environment for him. He meets his family, friends and coworkers; engages in social circles and sometimes it takes a little time to readjust to this new lifestyle. There can also be times when the person may face vulnerability or feel triggered by friends or colleagues who may encourage him to drink or drug use. Thus, choosing and maintaining a proactive lifestyle after treatment is also continuing the commitment to recovery which comes under **addiction recovery management**.
