, **Building Vocabulary Skills** Donald J. Goodman, Carole Mohr, 1990. Helps students learn essential words and word parts that are needed for general reading comprehension in high school, college, and the everyday work world **Resources in Education**, 2000-04 *Developmental Dyslexia and Anaphora Resolution in English L1/L2* Nicoletta Simi, 2021-06-15
This book presents the results of three experimental studies focusing on the ability of people with dyslexia to resolve ambiguous anaphoric sentences where concrete and abstract referents are present. Each study represents a step in the ongoing investigation of this issue and stems from questions left unanswered by previous research. This work is primarily inspired by the desire to gain a better understanding of the role of syntactic and lexical knowledge in text comprehension and more specifically of the effects of word concreteness and abstractness in anaphora resolution contexts for readers with dyslexia. The book also investigates the resources necessary to process ambiguous anaphoric sentences. The innovative methodology implemented here comprises both experimental techniques such as eye tracking and the use of questionnaires and standardised tests to answer specific research questions. It also puts forward a hypothesis that explains the different deficits manifesting in people with dyslexia and suggests that in reading comprehension tasks the known impairment in people with dyslexia's working memory may hinder their ability to efficiently and accurately perform tasks involving procedural memory resources. As a consequence, this impairment would emerge as disruptions of people with dyslexia's semantic and syntactic competence as well as their functioning in complex tasks which are particularly demanding in terms of working memory resources.
