

The ASAM Criteria

Fourth Edition

OVERVIEW OF CHANGES

First published in 1991, *The ASAM Criteria* promotes individualized and holistic treatment planning, and guides clinicians and care managers in making objective decisions about patient admission, continuing care, and movement along the continuum of care. The Fourth Edition of *The ASAM Criteria* follows the same guiding principles as previous editions, namely:

- Admission into treatment is based on patient needs rather than arbitrary prerequisites (eg, prior treatment failure).
- Patients receive a multidimensional assessment that addresses the broad biological, psychological, social, and cultural factors that contribute to substance use disorders (SUDs), addiction, and recovery.
- Care is interdisciplinary, evidence-based, patient-centered, and delivered from a place of empathy.
- Treatment plans are individualized based on patient needs and preferences.
- Co-occurring conditions are an expectation, not an exception, among patients with SUDs.
- Patients move along the clinical continuum of care based on their progress and outcomes rather than arbitrary predetermined lengths of stay.
- Informed consent and shared decision-making accompany treatment decisions.

The ASAM Criteria incorporates multiple sets of interacting standards that provide a framework for organizing the addiction treatment system and determining appropriate level-of-care recommendations, including:

- The continuum of care with service characteristic standards for each level of care,
- Assessment standards,
- Dimensional Admission Criteria, and
- Treatment planning standards.

The Continuum of Care

Similar to earlier editions, this Fourth Edition of *The ASAM Criteria* describes treatment as a continuum marked by four broad levels of care.

LEVEL 1: OUTPATIENT TREATMENT

LEVEL 2: INTENSIVE OUTPATIENT/HIGH-INTENSITY OUTPATIENT TREATMENT

LEVEL 3: RESIDENTIAL TREATMENT

LEVEL 4: MEDICALLY MANAGED INPATIENT TREATMENT

Within these four broad levels of care, decimal numbers express further gradations of intensity and types of care provided. Level x.1 and x.5 programs are clinically managed, meaning that treatment planning is led by clinical

Advanced Macroeconomics Filipe R. Campante, Federico Sturzenegger, Andrés Velasco, 2021-10-11 Macroeconomic policy is one of the most important policy domains and the tools of macroeconomics are among the most valuable for policy makers Yet there has been up to now a wide gulf between the level at which macroeconomics is taught at the undergraduate level and the level at which it is practiced At the same time doctoral level textbooks are usually not targeted at a policy audience making advanced macroeconomics less accessible to current and aspiring practitioners This book born out of the Masters course the authors taught for many years at the Harvard Kennedy School fills this gap It introduces the tools of dynamic optimization in the context of economic growth and then applies them to a wide range of policy questions ranging from pensions consumption investment and finance to the most recent developments in fiscal and monetary policy It does so with the requisite rigor but also with a light touch and an unyielding focus on their application to policy making as befits the authors own practical experience *Advanced Macroeconomics An Easy Guide* is bound to become a great resource for graduate and advanced undergraduate students and practitioners alike

Advanced Macroeconomics: An Alternative Approach Kumaraswamy Velupillai, 2018-04-01

Advanced Macroeconomics An Alternative Approach surveys the growth and development of macroeconomics beginning with Wicksell's codification of its main elements. Covering 120 years of rigorous curiosity, it guides readers toward clearly described frontiers by developing macroeconomic theories with the help of algorithmic mathematics not externally developed real analysis and mathematical logic irrelevant to macroeconomics. Avoiding an excessive homogeneity of perspectives, it reveals new perspectives about economic phenomena by challenging readers to use new or alternative methodologies. Early chapters cover standard approaches enabling readers to appreciate innovations. Advanced Macroeconomics An Alternative Approach uses mathematics based on aspects of computability theory, constructive mathematics, and associated simulation techniques. Includes end of section questions with answers. Provides Matlab simulations on a freely accessible website. Offers framing summaries and explanations that increase accessibility to alternative theories and applications.

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
