Advances in Semantic Media Adaptation and Personalization Manolis Wallace, Marios C. Angelides, Phivos Mylonas, 2008-01-04 Realizing the growing importance of semantic adaptation and personalization of media the editors of this book brought together leading researchers and practitioners of the field to discuss the state of the art and explore emerging exciting developments This volume comprises extended versions of selected papers presented at the 1st International Workshop on Semantic Media Adaptation and Personalization SMAP 2006 which took place in Athens in December 2006 *Advances in Semantic Media Adaptation and Personalization, Volume 2* Marios C. Angelides, Phivos Mylonas, Manolis Wallace, 2009-03-17 The emergence of content and context aware search engines which not only personalize searching and delivery but also the content has caused the emergence of new infrastructures capable of end to end ubiquitous transmission of personalized multimedia content to any device on any network at any time Personalizing and adapting content requires pro

2009 4th International Workshop on Semantic Media Adaptation and Personalization IEEE Staff, P. Mylonas, 2009 **Semantics in Adaptive and Personalized Services** Manolis Wallace, Ioannis Anagnostopoulos, Phivos Mylonas, Mária Bieliková, 2010-02-28 Semantics in Adaptive and Personalised Services initially strikes one as a specific and perhaps narrow domain Yet a closer examination of the term reveals much more On one hand there is the issue of semantics Nowadays this most often refers to the use of OWL RDF or some other XML based ontology description language in order to represent the entities of problem Still semantics may also very well refer to the consideration of the meanings and concepts rather than arithmetic measures regardless of the representation used On the other hand there is the issue of adaptation i e automated re configuration based on some context This could be the network and device context the application context or the user context we refer to the latter case as personalization From a different perspective there is the issue of the point of view from which to examine the topic There is the point of view of tools referring to the algorithms and software tools one can use the point of view of the methods referring to the abstract methodologies and best practices one can follow as well as the point of view of applications referring to successful and pioneering case studies that lead the way in research and innovation Or at least so we thought Based on the above reasoning the editors identified key researchers and practitioners in each of the aforementioned categories and invited them to contribute a corresponding work to this book However as the authors contributions started to arrive the editors also started to realize that although these categories participate in each chapter to different degrees none of them can ever be totally obsolete from them Moreover it seems that theory and methods are inherent in the development of tools and applications and inversely the application is also inherent in the motivation and presentation of tools and methods
