Problem

Describe the climate of any location in the world.

a. You should begin by choosing a place and acquiring average monthly temperature and precipitation data. This can be done using your textbook, climatic data references, the Internet, atlases, climate atlases, maps, or other data sources.

b. Below, sketch a climograph for the city you chose.

c. Describe the average temperature and precipitation patterns, and explain the location's climate with regard to climatic controls.

d. Where information is available, identify and describe years that differ significantly from average conditions. You may also consider describing how vegetation patterns at your location reflect climate.
