The Human Terrain System Christopher J. Sims, 2015 The Human Terrain System embedded civilians primarily in brigade combat teams BCTs in Iraq and Afghanistan between 2007 and 2014 to act as a collection and dispersal mechanism for sociocultural comprehension Set against the backdrop of the program's evolution the experiences of these social scientists clarify the U S Army's decision to integrate social scientists at the tactical level in conflict Based on interviews program documents material from Freedom of Information Act requests and secondary sources this book finds a series of limiting factors inhibiting social science research at the tactical level common to both Iraq and Afghanistan Complexity in integrating civilians into the military decision making cycle in creating timely research with a high level of fidelity and in making granular research that resonated with brigade staff all contributed to inhibiting the overall effect of the Human Terrain System Yet while high operational tempo in contested spaces complicates social science research at the tactical level the author argues that there is a continued requirement for a residual capability to be maintained by the U S Army Related items Other resources produced by the Strategic Studies Institute US Army War College can be found here <https://bookstore.gpo.gov/agency/1609> Weapon of Choice U S Army Special Operations Forces in Afghanistan can be found here https://bookstore.gpo.gov/products/sku/008_029_00431_3 Counterinsurgency Leadership in Afghanistan Iraq and Beyond can be found here https://bookstore.gpo.gov/products/sku/008_046_00274_6 Surging South of Baghdad The 3d Infantry Division and Task Force MARNE in Iraq 2007 2008 can be found here https://bookstore.gpo.gov/products/sku/008_029_00522_1 Iraq and Persian Gulf Wars collection can be found here https://bookstore.gpo.gov/catalog/us/military/history/battles/wars/iraq_persian_gulf_wars Training Humans for the Human Domain can be found here https://bookstore.gpo.gov/products/sku/008_000_01173_7 Paid to Perform Aligning Total Military Compensation With Talent Management can be found here <https://bookstore.gpo.gov/node/49300/edit> The Effective Use of Reserve Personnel in the U S Military Lessons From The United Kingdom Reserve Model can be found at this link https://bookstore.gpo.gov/products/sku/008_000_01100_1 Afghanistan War collection

Sims, 2018-04-19 To avoid the footpaths which may have been mined with improvised explosive devices IEDs Ryan Evans a U S federal civilian was walking across a wheat field in Babaji Helmand Province in the spring of 2011 Evans was attached to the Royal Highland Fusiliers 2 Scots C Company a heavy infantry patrol tasked with providing security in the vicinity Begun 2 years earlier the Helmand Food Zone Program was a form of development intervention which offered subsidies seed and fertilizers to farmers who replaced lucrative opium cultivation from poppies with growing and harvesting wheat and vegetable crops Babaji had been in the control of insurgents until a few months earlier and had not received any assistance from the program during the previous year consequently there were tensions between the community and British forces As Evans and the patrol emerged from the field an Afghan man sitting nearby clearly irate shouted in Pashto that the British soldiers had wanted the farmer to grow wheat instead of poppy and then the same British soldiers walked through their fields At the immediate level the encounter demonstrated the direct link between conflict food security and local trade but conflict has many interrelated and mutual dependencies such that the anecdote is instructive on myriad broader milieus Where for example is the tipping point that makes a civilian value creating an expression of discontent to a heavily armed patrol above his immediate physical security Do livelihoods and cultures affect military strategies Are there interdependencies between insurgencies societies and economies Does the language of war require a sociological grammar in order to be understood Armed conflict is a human enterprise such that by extension understanding of the human dimension in a given area of operations should be thought integral to planning successful operations *Virtual War and Magical Death* Neil L. Whitehead, Sverker Finnström, 2013-04-19 The contributors to this provocative collection scrutinize the relations between anthropology and contemporary global war contending that modern high tech warfare is analogous to rituals of magic and sorcery and examining the U S military's exploitation of ethnographic research **The Torture Letters** Laurence Ralph, 2020-01-15 Torture is an open secret in Chicago Nobody in power wants to acknowledge this grim reality but everyone knows it happens and that the torturers are the police Three to five new claims are submitted to the Torture Inquiry and Relief Commission of Illinois each week Four hundred cases are currently pending investigation Between 1972 and 1991 at least 125 black suspects were tortured by Chicago police officers working under former Police Commander Jon Burge As the more recent revelations from the Homan Square black site show that brutal period is far from a historical anomaly For more than fifty years police officers who took an oath to protect and serve have instead beaten electrocuted suffocated and raped hundreds perhaps thousands of Chicago residents In *The Torture Letters* Laurence Ralph chronicles the history of torture in Chicago the burgeoning activist movement against police violence and the American public's complicity in perpetuating torture at home and abroad Engaging with a long tradition of epistolary meditations on racism in the United States from James Baldwin's *The Fire Next Time* to Ta Nehisi Coates's *Between the World and Me* Ralph offers in this book a

collection of open letters written to protesters victims students and others Through these moving questing enraged letters Ralph bears witness to police violence that began in Burge s Area Two and follows the city s networks of torture to the global War on Terror From Vietnam to Geneva to Guantanamo Bay Ralph s story extends as far as the legacy of American imperialism Combining insights from fourteen years of research on torture with testimonies of victims of police violence retired officers lawyers and protesters this is a powerful indictment of police violence and a fierce challenge to all Americans to demand an end to the systems that support it With compassion and careful skill Ralph uncovers the tangled connections among law enforcement the political machine and the courts in Chicago amplifying the voices of torture victims who are still with us and lending a voice to those long deceased

Ethnographies of U.S. Empire Carole McGranahan, John F. Collins, 2018-08-02 How do we live in and with empire The contributors to Ethnographies of U S Empire pursue this question by examining empire as an unequally shared present Here empire stands as an entrenched if often invisible part of everyday life central to making and remaking a world in which it is too often presented as an aberration rather than as a structuring condition This volume presents scholarship from across U S imperial formations settler colonialism overseas territories communities impacted by U S military action or political intervention Cold War alliances and fissures and most recently new forms of U S empire after 9 11 From the Mohawk Nation Korea and the Philippines to Iraq and the hills of New Jersey the contributors show how a methodological and theoretical commitment to ethnography sharpens all of our understandings of the novel and timeworn ways people live thrive and resist in the imperial present Contributors Kevin K Birth Joe Bryan John F Collins Jean Dennison Erin Fitz Henry Adriana Mar a Garriga L pez Ol via Maria Gomes da Cunha Matthew Gutmann Ju Hui Judy Han J K haulani Kauanui Eleana Kim Heonik Kwon Soo Ah Kwon Darryl Li Catherine Lutz Sunaina Maira Carole McGranahan Sean T Mitchell Jan M Padios Melissa Rosario Audra Simpson Ann Laura Stoler Lisa Uperesa David Vine

Fremont-Barnes, 2015-05-05 This two volume history of counterinsurgency covers all the major and many of the lesser known examples of this widespread and enduring form of conflict addressing the various measures employed in the attempt to overcome the insurgency and examining the individuals and organizations responsible for everything from counterterrorism to infrastructure building How and when should counterinsurgency be pursued as insurgency is growing in frequency and conversely while conventional warfare continues to decline as a means by which political rivals seek to impose their will upon each other What lessons from the past should today s policymakers strategists military leaders and soldiers in the field keep in mind while facing off against 21st century insurgents This two volume set offers a comprehensive history of modern counterinsurgency covering the key examples of this widespread and enduring form of conflict It identifies the political military social and economic measures employed in attempting to overcome insurgency examining the work of the individuals and organizations involved demonstrating how success and failure dictated change from established policy and carefully analyzing the results Readers will gain valuable insight from the detailed assessments of the history of counterinsurgency that demonstrate which strategies have succeeded and which have failed and why After an introductory essay on the subject each chapter provides historical background to the insurgency being addressed before focusing on the specific policies pursued and actions taken by the counterinsurgency force Each section also provides an assessment of those operations

including in most cases an analysis of lessons learned and where appropriate their relevance to counterinsurgency operations today The set s coverage spans modern counterinsurgencies from Europe to Asia to Africa since 1900 and includes the ongoing counterinsurgency operations in Afghanistan today Its wide international approach to the subject makes the set a prime resource for readers seeking specific information on a particular conflict or a better understanding of the general theories and practices of counterinsurgency

The Theory and Practice of Irregular Warfare Andrew Mumford, Bruno C Reis, 2013-11-26 This book offers an analysis of key individuals who have contributed to both the theory and the practice of counterinsurgency COIN Insurgencies have become the dominant form of armed conflict around the world today The perceptible degeneration of the occupations of Iraq and Afghanistan into insurgent quagmires has sparked a renewal of academic and military interest in the theory and practice of counterinsurgency In light of this this book provides a rigorous analysis of those individuals who have contributed to both the theory and practice of counterinsurgency warrior scholars These are soldiers who have bridged the academic military divide by influencing doctrinal and intellectual debates about irregular warfare Irregular warfare is notoriously difficult for the military and scholarly understanding about this type of warfare is also problematic especially given the residual anti intellectualism within Western militaries Thus *The Theory and Practice of Irregular Warfare* is dedicated to analysing the best perceivable bridge between these two worlds The authors explore the theoretical and practical contributions made by a selection of warrior scholars of different nationalities from periods ranging from the French colonial wars of the mid twentieth century to the Israeli experiences in the Middle East from contributions to American counter insurgency made during the Iraq War to the thinkers who shaped the US war in Vietnam This book will be of much interest to students of counterinsurgency strategic studies defence studies war studies and security studies in general
