Creating Consilience Edward Slingerland,Mark Collard,2012-01-19 Calls for a consilient or vertically integrated approach to the study of human mind and culture have for the most part been received by scholars in the humanities with either indifference or hostility One reason for this is that consilience has often been framed as bringing the study of humanistic issues into line with the study of non human phenomena rather than as something to which humanists and scientists contribute equally The other major reason that consilience has yet to catch on in the humanities is a dearth of compelling examples of the benefits of adopting a consilient approach Creating Consilience is the product of a workshop that brought together internationally renowned scholars from a variety of fields to address both of these issues It includes representative pieces from workshop

speakers and participants that examine how adopting such a consilient stance informed by cognitive science and grounded in evolutionary theory would concretely impact specific topics in the humanities examining each topic in a manner that not only cuts across the humanities natural science divide but also across individual humanistic disciplines By taking seriously the fact that science humanities integration is a two way exchange this volume takes a new approach to bridging the cultures of science and the humanities The editors and contributors formulate how to develop a new shared framework of consilience beyond mere interdisciplinarity in a way that both sides can accept 2009 Guide To Literary Agents - Listings Chuck Sambuchino,2008-07-01 Now more than ever in a market glutted with aspiring writers and a shrinking number of publishing houses writers need someone familiar with the publishing scene to shepherd their manuscript to the right person Completely updated annually Guide to Literary Agents provides names and specialties for more than 800 individual agents around the United States and the world The 2009 edition includes more than 85 pages of original articles on everything you need to know including how to submit to agents how to avoid scams and what an agent can do for their clients **This Course Is Required** Kimberly Nguyen,2016-01-19 *Anthropology For Beginners* Micah J.
