Aull Davies Charlotte 2008 Reflexive Ethnography A Guide:

Reflexive Ethnography Charlotte Aull Davies, 1999 Reflexive Ethnography provides a practical and comprehensive guide to ethnographic research methods which fully engages with the significant issues of modernism postmodernism subjectivity objectivity and self other

Reflexive Ethnography Charlotte Aull Davies, 2012 Reflexive Ethnography is a unique guide to ethnographic research for students of anthropology and related disciplines It provides practical and comprehensive guidance to ethnographic research methods but also encourages students to develop a critical understanding of the philosophical basis of ethnographic authority Davies examines why reflexivity at both personal and broader cultural levels should be integrated into ethnographic research and discusses how this can be accomplished for a variety of research methods This revised and updated second edition includes a new chapter on internet based research and interethnography chapters on selection of topics and methods data collection and analysis and ethics and politics of research practical advice on writing up ethnographic study new and updated research examples Postmodernist relativism can lead to an over emphasis on reflexivity that denies the possibility of social research Reflexive Ethnography utilises postmodernist insights incorporation of different standpoints exposure of the intellectual tyranny of meta narratives but proposes that reflexive ethnographic research be undertaken from a realist perspective Reflexive Ethnography will help students to use and understand ethnographic research practices that fully incorporate reflexivity without abandoning claims to develop valid knowledge of social reality

The Oxford Handbook of Dance and Ethnicity Anthony Shay, Barbara Sellers-Young, 2016-04-20 Dance intersects with ethnicity in a powerful variety of ways and at a broad set of venues Dance practices and attitudes about ethnicity have sometimes been the source of outright discord as when African Americans were and sometimes still are told that their bodies are not right for ballet when Anglo Americans painted their faces black to perform in minstrel shows when 19th century Christian missionaries banned the performance of particular native dance traditions throughout much of Polynesia and when the Spanish conquistadors and church officials banned sacred Aztec dance rituals More recently dance performances became a locus of ethnic disunity in the former Yugoslavia as the Serbs of Bosnia attended dance concerts but only applauded for the Serbian dances presaging the violent disintegration of that failed state The Oxford Handbook of Dance and Ethnicity brings together scholars from across the globe in an investigation of what it means to define oneself in an ethnic category and how this category is performed and represented by dance as an ethnicity Newly commissioned for the volume the chapters of the book place a reflective lens on dance and its context to examine the role of dance as performed embodiment of the historical moments and associated lived identities In bringing modern dance and ballet into the conversation alongside forms more often considered ethnic the chapters ask the reader to contemplate previous categories of folk ethnic classical and modern From this standpoint the book considers how dance maintains challenges resists or in some cases evolves new forms of identity based on prior categories Ultimately the goal of the book is to acknowledge the depth of research that has been

undertaken and to promote continued research and conceptualization of dance and its role in the creation of ethnicity Dance and ethnicity is an increasingly active area of scholarly inquiry in dance studies and ethnomusicology alike and the need is great for serious scholarship to shape the contours of these debates The Oxford Handbook of Dance and Ethnicity provides an authoritative and up to date survey of original research from leading experts which will set the tone for future scholarly conversation

Transnational Lives in Global Cities Caroline Plüss,2018-12-21 This book investigates the transnational experiences of Chinese Singaporeans who lived in one of four global cities Hong Kong London New York or Singapore Plüss argues that these middle class well educated and often highly skilled migrants mostly experienced a sense of dis embeddedness and not cosmopolitanism or hybridity in their transnational lives The author's multi sited study intersects the Chinese Singaporeans highly varied perceptions of these global cities and their biographies to show that these migrants who often were repeat migrants foremost experienced ruptures and disjuncture in their education work family and or friendships lifestyle contexts Transnational dis embeddedness is explained in terms of the Chinese Singaporeans access to resources and their views of self others places and societies Plüss recommends that research on these migrants should more fully account for the complexities of transnational processes and contributes with such a knowledge to the scholarship on transnationalism migration race and ethnicity and migrant non integration

Ethnographic Narratives as World Literature Lucio De Capitani,2023-08-31 This book links world literary studies with anthropology and ethnography It shows how ethnographic narratives can represent a compelling point of departure for world literary explorations The volume compares the travel writing and fiction of Robert Louis Stevenson and Rudyard Kipling as colonial ethnographic narratives the militant writings of Carlo Levi and Mahasweta Devi and the travelogues and ethnographic fiction of Amitav Ghosh and the literary journalism of Frank Westerman Each of these readings focuses on a set of social political and historical circumstances and relies on a dialogue with anthropological theory and history This book demonstrates how imperialism colonialism capitalism and ecology are interdependent and contributes to methodological debates within both anthropology and world literary studies

Evil, Spirits, and Possession David L Bradnick, 2017-08-28 In *Evil Spirits and Possession An Emergentist Theology of the Demonic* David Bradnick develops a multidisciplinary view of the demonic using biblical theological social scientific and philosophical scientific perspectives Building upon the work of Pentecostal theologian Amos Yong this book argues for a theology informed by emergence theory whereby the demonic arises from evolutionary processes and exerts downward causal influence upon its constituent substrates Consequently evil does not result from conscious diabolic beings rather it manifests as non personal emergent forces that influence humans to initiate and execute nefarious activities Emergentism provides an alternative to contemporary views which tend to minimize or reject the reality of the demonic and it retains the demonic as a viable theological category in the twenty first century
