Zannetti,2013-06-29 Finishing this book is giving me a mixture of relief satisfaction and frustration Relief for the completion of a project that has taken too many of my evenings and weekends and that in the last several months has become almost an obsession Satisfaction for the optimistic feeling that this book in spite of its many shortcomings and imbalances will be of some help to the air pollution scientific community Frustration for the impossibility of incorporating newly available material that would require another major review of several key chapters an effort that is currently beyond my energies but not beyond my desires The first canovaccio of this book came out in 1980 when I was invited by Computational Mechanics in the United Kingdom to give my first Air Pollution Modeling course The course material in the form of transparencies expanded year after year thus providing a growing working basis In 1985 the ECC Joint Research Center in Ispra Italy asked me to prepare a critical survey of mathematical models of atmospheric pollution transport and deposition This support gave me the opportunity to prepare a sort of first draft of the book which I expanded in the following years **Manual of Treatment by Massage and Methodical Exercise** Joseph Screiber,1887
