Byzantine Materiality Evan Freeman, Roland Betancourt, 2024-06-04 This volume explores the power of matter and materials in the Eastern Roman Empire also known as Byzantium Recent attention to matter as dynamic and meaningful constitutes an emerging interdisciplinary field of inquiry known as materiality new materialism or the material turn Materials can be symbolic but matter can also act on human subjects This volume builds on these insights to consider the role of matter materials form and embodied experiences in Byzantium In many respects Byzantine materiality represents a continuation of its Greco Roman inheritance which was also shared by neighboring peoples such as the Umayyads and Abbasids But the Byzantines also developed their own unique perspectives on matter and form as with their parsing of the sacred materialities of icons the Eucharist and relics Chapters in this volume consider the cultural meanings and functions of materials such as gold and ivory the materiality of icons and relics experiences of objects as well as Byzantine philosophies of matter and form Materiality takes center stage in Byzantine constructions of power luxury belief and identity which will be of interest to scholars and students of Byzantium and the wider medieval world

Vindicating the Filioque: The Church Fathers at the Council of Florence Fr. Thomas Crean, 2023-06-27 The Catholic doctrine of the Filioque that the Holy Spirit eternally proceeds from the Father and the Son has historically been a source of contention between the Western Church and the Eastern Church While recent efforts to reach ecumenical agreement have claimed to overcome this divide their proposed solutions not only overlook but overturn the consensus reached by West and East alike at the fifteenth century Council of Florence which defined the doctrine and clarified its rootedness in the teaching of the Fathers of the Church In *Vindicating the Filioque* Thomas Crean O P mounts a robust ecumenical defense of the truth of this doctrine and the authority of its Florentine definition building his case on principles common to both Catholics and Orthodox The first part of the study gives a careful presentation of patristic testimony concerning the procession of the Spirit material central to the conciliar debates at Florence and of abiding theological consequence In the second part Crean explores the nature of ecumenical councils drawing on the first seven councils to establish criteria for conciliar ecumenicity and authority that can be used to evaluate the status of the Council of Florence The third part describes the Council of Florence itself showing how it fulfils the criteria for an ecumenical council and replying to objections against its authority Combining thorough study of patristic texts sensitivity to theological common ground and historical attentiveness to the acta of the council *Vindicating the Filioque* demonstrates the soundness of the Florentine definition of the Holy Spirit's procession and its importance as a basis for lasting unity of East and West

Hearing the Scriptures Eugen J. Pentiuc, 2021-10-16 Throughout the ages interpreters of the Christian scriptures have been wonderfully creative in seeking to understand and bring out the wonders of these ancient writings That creativity has often been overlooked by recent scholarship concentrated as it is in the so called critical period In this study Eugen J Pentiuc illuminates the remarkable way in which the Byzantine hymnographers liturgists expressed

their understanding of the Old Testament in their compositions an interpretive process that he terms liturgical exegesis In authorship and methodology patristic exegesis and liturgical exegesis are closely related Patristic exegesis however is primarily linear and sequential proceeding verse by verse while liturgical exegesis offers a more imaginative and eclectic mode of interpretation ranging over various parts of the Bible In this respect says Pentiuc liturgical exegesis resembles cubist art To illuminate the multi faceted creativity of liturgical exegesis Pentiuc has chosen the vast and rich hymnography of Byzantine Orthodox Holy Week as a case study offering a detailed lexical biblical and theological analysis of selected hymns His analysis reveals the many different and imaginative ways in which creative liturgists incorporated and interpreted scriptural material in these hymns By drawing attention to the way in which the bible is used by Byzantine hymnographers in the living Orthodox tradition Hearing the Scriptures makes a ground breaking contribution to the history of the reception of the scriptures

Gregory of Nyssa, Augustine of Hippo, and the Filioque Chungman Lee,2021-08-24 In this volume Chungman Lee offers a concise yet thorough evaluation of the contemporary discussion on the filioque and the remaining issues still at stake Lee examines the trinitarian theologies of Gregory of Nyssa and Augustine of Hippo as representative of respectively the eastern and western patristic traditions He demonstrates that they share similar ideas on the monarchy of the Father and on the role of the Son in the procession of the Holy Spirit notwithstanding their slightly different expressions and perspectives As such the present study seeks to work towards a common patristic foundation for reconciliation between East and West on the problem of the filioque

Assembling Futures Jennifer Quigley,Catherine Keller,2024-08-20 Transdisciplinary insights at the intersection of religion democracy ecology and economy What is the relationship of religion to economy ecology and democracy In our fraught moment what critical questions of religion may help to assembly democratic processes ecosystems and economic structures differently What possible futures might emerge from transdisciplinary work across these traditionally siloed scholarly areas of interest The essays in Assembling Futures reflect scholarly conversations among historians political scientists theologians biblical studies scholars and scholars of religion that transgress disciplinary boundaries to consider urgent matters expressive of the values practices and questions that shape human existence Each essay recognizes urgent imbrications of the global economy multinational politics and the materiality of ecological entanglements in assembling still possible futures for the earth Precisely in their diversity of disciplinary starting points and ethical styles the essays that follow enact their intersectional forcefield even more vibrantly

Gentlefolk in the Making John E. Mason,2016-11-11 A detailed compilation of books on polite conduct from Elyot s The Governour to Chesterfield s Letters with generous quotations from the more important ones

Sacred Images and Sacred Power in Byzantium Gary Vikan,2003 In these studies Gary Vikan has opened new perspectives on the daily life and material culture of Late Antiquity more specifically on icons and relics and on objects revealing of the world of pilgrimage the early cult of saints and marriage He contextualizes these familiar categories of object in the patterns of belief and ritual

extracted from contemporary texts and the objects themselves in order to understand their meaning within the everyday lives of those by whom and for whom they were made The studies give a nuanced delineation of the inherently ambiguous boundary between conventional religion and magic noting repeatedly those instances wherein the two are invoked in the same breath and by way of the same art object toward the same end From this historically constructed matrix of art belief and ritual the author derives an anthropologically defined paradigm of charisma and pilgrimage applied in one essay as an intriguing parallel to deconstructing the world of a contemporary secular saint Elvis Presley *Books in Print Supplement* ,1982 The Perfectibility of Man John Arthur Passmore,1971 A careful examination and critique of various forms of the search for perfection in Western history from a liberal humanistic point of view which values diversity and caring Books in Print ,1981
