Vardell, 2019-06-14 This practitioner oriented introduction to literature for children ages 5-12 covers the latest trends, titles and tools for choosing the best books and materials as well as for planning fun and effective programs and activities. The third edition of Children's Literature in Action provides an activity oriented survey of children's literature for undergraduate and graduate students seeking licensure and degrees that will lead to careers working with children in schools and public libraries. Author Sylvia M. Vardell draws on her 30 years of university teaching and extensive familiarity with the major textbooks in the area of children's literature to deliver something different: a book that focuses specifically on the perspective and needs of the librarian with emphasis on practical action and library applications. Its contents address seven major genres: picture books, traditional tales, poetry, contemporary realistic fiction, historical fiction, fantasy, and informational books. Each chapter includes practical applications for the educator who shares books with children and who develops literature based instruction. Chapters are enriched by author comments, collaborative activities, featured books, special topics and activities including selected awards and celebrations, historical connections, recommended resources, issues for discussion and assignment suggestions. Classical Chinese Poetry in Singapore Bing Wang, 2017-11-22 As the essence of Chinese traditional culture, classical Chinese poetry in Singapore played a very important role in the social and cultural development of Singapore's Chinese community. Numerous poems depicted the unique scenery of tropical rainforest and the customs with a Nanyang flavor, recorded the various historical events from the colonial era, the World War II to the independent nation, and reflected the poets' multiple feelings. This book sketches out the brief history of classical Chinese poetry in Singapore over a hundred years and focuses on the complex identity of poets from different generations, the function of literary societies in the construction of cultural space, and the influence of modern media on the development of classical Chinese poetry based on the text interpretation. In addition, the author attempts to define different types of poetry writing using diaspora literature and Sinophone literature. The discussion of these topics will not only expand the research horizon of Chinese literature but also provide a meaningful reference to the studies of the worldwide Chinese overseas, especially in Southeast Asia.
