

The background of the book cover is a vibrant tropical beach scene. In the top left corner, a green palm frond hangs down. The sky is a clear, bright blue with a few wispy white clouds. The ocean is a deep turquoise color with white foam from gentle waves washing onto a sandy beach. In the distance, a small, green, hilly island is visible on the horizon. The overall mood is peaceful and serene.

Anxiety Overcoming Approaches Depression Behavioural:

Rational Emotive Behavioral Approaches to Childhood Disorders Albert Ellis, Michael E. Bernard, 2006-05-11 Since the groundbreaking first edition of *Rational Emotive Approaches to the Problems of Childhood* by Albert Ellis and Michael Bernard two decades ago our understanding of the nature and treatment of children's problems has grown considerably. Now in a completely new volume Albert Ellis and children's REBT specialist Professor Michael Bernard have revised and updated this pioneering volume to reflect both the latest in clinical practice and research. Fourteen expert contributors including many from the original share with the editors a deep commitment to integrating REBT with other cognitive behavioral methods and to providing young people with developmentally appropriate care. Together they give readers a practical framework for conducting assessment, treatment and prevention with individual clients and groups as well as in family and school settings. Key features of this new edition include: Developmental considerations in using REBT with children and adolescents; Specific chapters devoted to major disorders: aggression, phobias, anxiety, depression, academic underachievement and ADHD; Latest strategies for challenging and changing the irrational beliefs of young people; Techniques for building key REBT skills: emotional resilience and frustration tolerance; Extensive research findings on the efficacy of REBT with young people; Brand new material on special issues involving parents, conducting group sessions and working with exceptional children. An overview of Rational Emotive Education and You Can Do It Education; school-based applications of REBT. With coverage this thorough, Ellis, Bernard and collaborators have created a resource of immediate value to child and adolescent mental health practitioners including school psychologists, school counselors, school social workers, behavior therapists and family therapists and educators involved in helping young people overcome behavioral disorders. *Low Intensity*
