## **Auguste Comte And Positivism The Essential Writings Media Studies Series:**

**Auguste Comte and Positivism** Gertrud Lenzer, 2017-09-08 Although Auguste Comte is conventionally acknowledged as one of the founders of sociology and as a key representative of positivism few new editions of his writings have been published in the English language in this century He has become virtually dissociated from the history of modern positivism and the most recent debates about it Gertrud Lenzer maintains that the work of Comte is for better or for worse essential to an understanding of the modern period of positivism This collection provides new access to the work of Comte and gives practitioners of various disciplines the possibility of reassessing concepts that were first introduced in Comte's writings Today much of the ordinary business of academic disciplines is conducted under the assumption that the realm of science is essentially separate from the realms of politics and science A close reading of Comte will reveal how deeply such current ideas and theories were originally embedded in a particular political context One of his central methodological principles was that the theory of society had to be removed from the arena of political practice precisely in order to control that practice by means of these same sciences It is in Comte's work that the reader will be able to observe how the forces of social and political reaction began to be powerfully organized to combat the critical forces in its own and later eras Auguste Comte and Positivism will be of importance to the work of philosophers sociologists political theorists and historians

**Encyclopedia of Historians and Historical Writing** Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

*The Photography Handbook* Terence Wright, 2013-09-13 This text provides an introduction to the principles of photographic practice and theory It also explores the history of lens based picture making and examines the medium's characteristics scope and limitations

**Political Science, Government, and Public Policy Series. Annual Supplement** Universal Reference System, 1972

**Rethinking Machine Ethics in the Age of Ubiquitous Technology** White, Jeffrey, Searle, Rick, 2015-05-31 As the utilization of intelligent machines spreads to numerous realms the discourse of machine ethics has also developed and expanded Concerns over machine intelligence and the role of automata in everyday life must be addressed before artificial intelligence and robotic technologies may be fully integrated into human society Rethinking Machine Ethics in the Age of Ubiquitous Technology blends forward looking constructive and interdisciplinary visions of ethical ideals aims and applications of machine technology This visionary

reference work incorporates ethical conversations in the fields of technology computer science robotics and the medical industry creating a vibrant dialogue between philosophical ideals and the applied sciences With its broad scope of relevant topics this book serves as an excellent tool for policymakers academicians researchers advanced level students technology developers and government officials This timely publication features thoroughly researched articles on the topics of artificial moral agency cyber warfare transhumanism organic neural nets human worker replacement automaticity and global governance security and surveillance military drones and more *Auguste Comte and Positivism* Auguste Comte,1975

**Redeeming Economics** John D. Mueller,2014-04-08 Groundbreaking Washington Examiner Economics is primed for and in desperate need of a revolution respected economic forecaster John D Mueller shows in this eye opening book To make the leap forward will require looking backward for as Redeeming Economics reveals the most important element of economic theory has been ignored for more than two centuries Since the great Adam Smith tore down this pillar of economic thought economic theory has been unable to account for a fundamental aspect of human experience the relationships that define us the loves and hates that motivate and distinguish us as persons In trying to reduce human behavior to exchanges modern economists have forgotten how these essential motivations are expressed as gifts or their opposite crimes Mueller makes economics whole again masterfully reapplying the economic thought of Aristotle Augustine and Aquinas Rethinking Security in Nigeria Dapo Adelugba,Ogo Ujomu,2007-05-15 Rethinking Security in Nigeria adopts an alternate conceptual and methodological framework for rethinking national security in Nigeria by using the humanities multidisciplinary perspective against the backdrop of the hitherto restrictive analysis of the nature of national security By expounding the largely unexplored cosmological conceptual ethical and aesthetic dimensions as key contributors to national survival and social integration the volume argues systematically for a basic redefinition of the meanings of security the value of life government action and social re engineering in order to create a new system of social order an integration The authors attempt to extend the boundaries of previous theorizing on security by identifying alternate ethical and aesthetic approaches to national reconciliation and human development in present day Nigeria which faces major security challenges requiring the clarification of the basis for developing a just and harmonious society The study is a contribution to the quest for defining the vital socio cultural norms and doctrinal imperatives needed for responsible cooperative human action It examines the roles of dominant works of philosophy literature plays and performances in the creation of a basis for political stability and social reconciliation in the society It extends the boundaries of previous aesthetic studies and redefines the roles of ethics and aesthetics as crucial contributors to security human development and world civilisation **Forthcoming Books** Rose Army,1998-04 **Myths for the Masses** Hanno Hardt,2008-04-15 With a lively and engaging style Myths for the Masses provides a critical interdisciplinary and historically informed statement about communication in contemporary life Written by Hanno Hardt one of the world's leading authorities on the subject Offers a comprehensive appraisal of mass

communication Provides a critical perspective on media and communication insociety Contains critical insights into the state of masscommunication democracy and the construction of the self insociety
