Die Pabstbildnisse des Altertums und des Mittelalters: Von Innozenz II. zu Benedikt XI. Tafeln. (2 v.) Gerhart Burian Ladner, 1970 What Color is Your Aura? Barbara Bowers, 1989-12-15 From Simon Schuster What Color Is Your Aura Personality Spectrums for Understanding and Growth describes the colored bands of light that surround everyone's body What Color Is Your Aura is the only book available that will tell readers what color their aura is and what it reveals about their personality emotions talents and potential *Edgar Cayce on Auras & Colors* Kevin J. Todeschi, Carol Ann Liaros, 2012 Including the well known Auras booklet written by Edgar Cayce Teil **The Human Aura** Avalon, 2015-08-17 Colors and intensity of the aura especially around and above the head have VERY special meanings Watching someone's aura you can actually see the other person's thoughts before you hear them expressed verbally If they do not agree with what this person is saying you effectively see a lie every time No one can lie in front of you undetected We cannot fake the Aura It shows our True Nature and intentions for everyone to see Also aura is our spiritual signature When you see a person with a bright clean aura you can be SURE that such person is good and spiritually advanced even if he/she is modest and not aware of it When you see a person with a gray or dark aura you may be almost SURE that such person has unclear intentions regardless how impressive eloquent educated good looking or well dressed he/she seems to appear Everyone has an Aura But most people on Earth have VERY WEAK and dull Auras This seems to be a direct consequence of their life long materialistic attitude negating and suppressing the development of consciousness cultivating fear envy jealousy and other similar emotions Such attitude suppresses their True Nature and their Auras seem to become suppressed too When people realize that their Aura is on display and many people are able to see it they will watch what they think And they will try to see and improve their own Aura In the process they will become better and wiser being able to recognize intentions of other people Surely the entire world will become much better if all people can see and read Auras Very young children up to 5 years of age see auras naturally Infants frequently look ABOVE a person in front of them When they don't like the color of the aura above the head or if this color is much different from their parent's aura they cry no matter how much smiling the person does Children have much cleaner and stronger auras than most of adults who are usually completely enslaved by the materialistic world and suppress their Nature by following superficial examples When I taught my 12 year old son to see his

own Aura he told me that when he was little he was able to see Auras most of the time But no one paid any attention so he thought that it was not important and maybe there was something wrong with his eyesight This is a typical scenario In my opinion children should learn to see and read Auras in a primary school so they never lose this natural ability In concentration we noticed that real colors are surrounded with Auras of different colors These auric colors are not random Following is a list of Auric Pairs of colors for all clean colors of the rainbow monochromatic colors red gives turquoise aura turquoise gives red aura orange gives blue aura blue gives orange aura yellow gives violet aura violet gives yellow aura green gives pink aura pink gives green aura The Aura is a reflection of our True Nature at any given moment At this point it is perhaps necessary to explain what do I mean by True Nature and why some effort is necessary to discover it Our society seems to emphasize symbols stereotypes habits manners superficial behavior pretending following others and submitting free will to some leaders Our education seems to be based on views and expectations of people who try to control the flock Our True Nature is what is left when we recognize and discard all our habits stereotypes manners and pretending superficial behavior and become fully conscious truly natural and spontaneous Note that some people are so attached to their manners and habits that it is very hard if not impossible to discover who they really are The only way to get an instant insight into their personality seems to be by watching their Aura because the Aura shows their True Nature behind any facade of superficial behavior
