What?

Which temperature provides the best for both power and cell lifespan? Consider simple means of determining sensitivity that of distance. However, as the distance between the electrodes, for a battery or fuel cell, increases and therefore resistance generally decreases which gives rise to losses for the system and will reduce the efficiency of the cell or battery.

Model 1 – Fuel Cell

1. Consider the system in Model 1. Consider how there are two distances after the switch on the left before the wire is connected. Explain what the condition of the cell will be after the switch is closed.
2. Consider the system in Model 1. What happens when the switch is closed? Explain what happens when the switch is closed.
