Great Battles of World War 1 Renato Frost,2015-06-24 World War I was a global war mostly centered in Europe that began on 28 July 1914 and lasted until 11 November 1918 More than 9 million combatants and 7 million civilians died as a result of the war a casualty rate exacerbated by the belligerents technological and industrial sophistication and tactical stalemate It was one of the deadliest conflicts in history paving the way for major political changes including revolutions in many of the nations involved This book gives a compilation of some of the most terrible and brutal battles fought during the Great War

The First Battle of the First World War Karl Deuringer,Terence Zuber,2014-09-01 On 7 August 1914 a French corps attacked towards Mulhouse in Alsace and was immediately thrown back by the Germans On 14 August two weeks before Tannenberg and three weeks before the Battle of the Marne the French 1st and 2nd Armies attacked into Lorraine and on 20 August the German 6th and 7th Armies counterattacked After forty three years of peace this was the first test of strength between France and Germany In 1929 Karl Deuringer wrote the official history of the battle for the Bavarian Army an immensely detailed work of 890 pages chronicling the battle to 15 September Here First World War expert and former army officer Terence Zuber has translated and edited this study to a more accessible length while retaining over thirty highly detailed maps to bring us the first account in English of the first major battle of the Great War

The Battlefields of the First World War Peter Barton,Peter Doyle,2005-11-11 The first publication of a unique unseen collection of over 500 panoramic photographs of the Western Front Here are the great battlegrounds of the First World War as you have never seen them before from the First Battle of Ypres where gallant men on horseback find things do not go to plan to the closing horror of the mud at Passchendaele The book showcases the most eye opening panoramas along with poignant personal photographs and the recollections of the soldiers caught in action in the battles shown These panoramic photographs were the nearest thing to satellite mapping in their day taken by the

British Royal Engineers for intelligence purposes throughout the war The photographers had to spend tens of minutes with their head above the parapet a view normally seen by the troops only through a trench periscope Many of the images give a field of view of up to 160 degrees and so sharp that individual figures a soldier picking lice on his shirt a sniper lying in wait can be made out The images cover the whole of the Western Front end to end For the general buyer they have an impact unlike anything seen before For the specialist they document a lost world putting other forms of archive into temporal topographical and geographical context What they reveal challenges existing perceptions of the First World War As well as tortured landscapes of featureless mud they also show fields of flowers beaches churches still standing There are desperate scenes for sure but an important lesson is that much of the war was fought in a real recognizable landscape **Great Battles of World War I** Anthony Livesey, 1989-01-01 **Battles of World War I** Martin Marix Evans, 2004
