Battling Corruption In Americas Public Schools:

Battling Corruption in America's Public Schools Lydia G. Segal, 2005 Drawing on ten years of undercover work and research in four major school districts Segal reveals how systemic waste and fraud siphon millions of dollars from urban classrooms Calling for renewed powers for principals and a streamlining of oversight she offers a bold far reaching plan to reclaim our schools

Urban Teaching in America Andrea J. Stairs, Kelly A. Donnell, Alyssa Hadley Dunn, 2012 This book provides undergraduate and graduate students in education with an overview of urban teaching Organized around eight authentic questions it offers pre service and in service teachers opportunities for critical reflection and problem posing not often seen in comparable course texts This text supports staff who are looking for increasingly creative approaches to exploring key educational issues with their students

School Choice William H. Jeynes, 2014-04-25 Are public charter schools more effective than traditional public schools This book provides quantitative evidence to answer this question and considers a better way to undertake a policy of school choice School Choice A Balanced Approach is the most comprehensive examination of traditional public schools public charter schools and faith based schools that has ever been undertaken By considering and comparing the overall data on these three types of educational systems it provides insight on likely outcomes of school choice programs The author's objective is not to advance any particular agenda but rather to provide readers with an unbiased analysis of research that has been embraced by both the G W Bush and Obama administrations that will allow for fresh thinking and the betterment of American education as a whole Author William H Jeynes PhD asks vital questions regarding the school choice issue that are often overlooked Which specific programs of school choice are likely to work and which would likely fail Is school choice really a boon for the private sector How might the implementation of school choice programs increase or decrease the financial burden on government budget deficits This book carefully addresses a relevant topic that ultimately affects every American making it essential reading for everyone from government officials and educators to students and the general public

Take No Prisoners David Horowitz, 2014-07-28 Battle scarred political warrior David Horowitz says it's time for conservatives to take the gloves off and take our country back America is at a crucial turning point in her history and Republicans have been losing ground to Democrats for too long In his new book Take No Prisoners Horowitz sounds a clarion call for conservatives to use liberals political playbook against them in the fight for America's future No longer can the GOP afford to let Democrats brazenly claim the moral high ground while the Democratic agenda bankrupts hardworking Americans No longer can the Right respond to the Left's emotional attacks with appeals to reason Year after year liberals have won voters hearts and minds by selling a fantasy of moral righteousness Republicans need to learn from Democrats successes in order to turn the tide David Horowitz argues and they need to do it now From his days as a founder of the radical New Left movement in the 1960s to his storied career as a leading conservative activist Horowitz has a lifetime of experience in battleground politics Now he lays out a winning political strategy for the Right that can save the

country from sliding into economic and social ruin If conservatives want a better future for America they need to be able to beat liberals at their own game and David Horowitz is teaching them how *Cheating Our Kids* Joe Williams,2025-10-16 Journalist Joe Williams shows how parents can use consumer power to put children first shining light on the special interests controlling our schools where politics and pork infuse everything and our children s education is compromised He argues that increased accountability and choice are necessary and shows how the people can take back the education system enhancing responsibility inherent in democracy The solution is a new brand of hardball politics that demands competence from school leaders and shifts the power away from bureaucrats and union leaders to the people who have a the greatest reason to put kids first concerned parents With practical steps and uplifting examples of success *Cheating Our Kids* How Politics and Greed Ruin Education is a manifesto to action *A Democratic Constitution for Public Education* Paul T. Hill,Ashley E. Jochim,2015 This study focuses on governance of K 12 public schools Governance the work of institutions that set the rules under which schools must operate can protect children and prevent misuse of public funds but it can also prevent teachers and principals from doing their best for children There are proposals to simplify governance changing by giving control to mayors eliminating elected school boards or eliminating local oversight entirely This book approaches governance from a new angle who governs is less important than what powers government has *Privatizing Educational Choice* Clive R Belfield,Henry M. Levin,2015-12-03 Controversies over the merits of public and private education have never been more prominent than today This book evaluates public and private schooling especially in regard to choices families must make for their children While choice among public schools is widely advocated today by families and states public support for private education including vouchers tax credits charter schools and private contracting is politically controversial The authors accessibly describe what research shows as to the effects for communities and children of these approaches They move beyond school choice to show how other factors most notably the family have a strong effect on a child s educational success The book helps educators and parents better understand the rapidly changing educational environment and the important choices they make in educating the nation s children *Learning on the Job* Steven F. Wilson,2006 The organizations Business models School designs School culture Execution School leaders Politics and schools Academic results Business results *School Scandals* Pat Thomson,2020-09-09 With almost daily reports of failings in school management what can be done to improve educational outcomes for everyone Pat Thomson takes on England s muddled education system highlighting failings caused by the actions of ministers in successive governments While corrupt actions are taken by some it is predominantly the corruption of the system that is at fault She exposes fraudulent and unethical practices including the skewing of the curriculum and manipulation of results and argues for an urgent review leading to a revitalised education system that has the public good at its heart *Unproductive School Choice Debates* John Merrifield,Nathan Gray,2023-05-22 The book explains why we desperately need an Open Education Industry It clearly

defines the term and the confusion about what can should be done to improve schooling outcomes and why over 30 years of efforts to improve schooling outcomes has left all 51 US school systems far short of what is needed to engage all schoolchildren in high value instruction Because of past education failures especially poor basic literacy in economic systems many influential academics and activists have asserted the presence of adequate market forces where key elements of high performing markets are absent and have become pre occupied with discussion of and development of devastating inappropriate generalizations about findings from studies of narrowly targeted restriction laden expansions of access to alternatives to traditional public schools The book compares those to transformational school choice expansions and describes key steps towards the inertia that threatens the future of America as a prosperous and free republic
