

IV dose and infusion rates for all 3 indications

INDICATION	DOSE	INITIAL INFUSION RATE	MAINTENANCE INFUSION RATE (IF COLLOIDATED)
CIDP	Loading dose: 2 g/kg Maintenance dose: 1 g/kg	2 mg/kg/min (0.02 mL/kg/min)	0 mg/kg/min (0.06 mL/kg/min) Entry 2 weeks
PIDD	300-600 mg/kg	1 mg/kg/min (0.01 mL/kg/min)	0 mg/kg/min (0.06 mL/kg/min) Entry 2 weeks
ITP	2 g/kg	1 mg/kg/min (0.01 mL/kg/min)	0 mg/kg/min (0.06 mL/kg/min)

It is recommended that the initial infusion rate be used for the first 30 minutes. If well tolerated, the rate may be gradually increased to a maximum of 0.06 mL/kg per minute (0.6 mg/kg/min).
Certain severe adverse drug reactions may be related to the rate of infusion. Slowing or stopping the infusion usually allows the symptoms to disappear promptly. Ensure that patients with preexisting renal insufficiency are not volume depleted. Discontinue if renal function deteriorates.
For patients at risk of renal dysfunction or thromboembolic events, administer at the minimum infusion rate practicable.

SC dose and infusion rate for PIDD

INITIAL DOSE	MAXIMUM INFUSION RATE
1.5T g (300 mg) or 1.0T g (200 mg) in 50 mL	20 mL/60 min

DO NOT ADMINISTER SUBCUTANEOUSLY FOR ITP AND CIDP PATIENTS

GAMUNEX-C
Immune globulin injection [human], 10% caprylate/chromatography purified

A versatile IG treatment with 3 FDA-approved indications¹

Please see inside for Important Safety Information for GAMUNEX-C (Immune globulin injection [human], 10% caprylate/chromatography purified) and refer to accompanying full Prescribing Information for complete prescribing details.

Important Safety Information

GAMUNEX-C (Immune globulin injection [human], 10% caprylate/chromatography purified) is indicated for the treatment of primary humoral immunodeficiency disease (PID) in patients 2 years of age and older, idiopathic thrombocytopenic purpura (ITP), and chronic inflammatory demyelinating polyneuropathy (CIDP).

Risk factors may include: advanced age, prolonged immobilization, hypercoagulable conditions, history of venous or arterial thrombosis, use of estrogens, indwelling central venous catheters, hyperviscosity, and cardiovascular risk factors. Thrombosis may occur in the absence of known risk factors. For patients at risk of thrombosis, administer GAMUNEX-C at the minimum dose and infusion rate practicable. Ensure adequate hydration in patients administered. Monitor for signs and symptoms of thrombosis and assess blood viscosity in patients at risk for hyperviscosity.
Renal dysfunction, acute renal failure, hemolytic uremia, and death: Patients with immune globulin intravenous (IVIg) products in predisposed patients. Patients predisposed to renal dysfunction include those with age, sex, dehydration, sepsis, renal insufficiency, diabetes mellitus, age greater than 65, volume overload, sepsis, paraproteinemia, or patients receiving known nephrotoxic drugs. Renal dysfunction and acute renal failure occur rarely in patients receiving IVIg and should contain caution. GAMUNEX-C does not contain sucrose. For patients at risk of renal dysfunction or failure, administer GAMUNEX-C at the minimum concentration and the minimum infusion rate practicable.

GAMUNEX-C is contraindicated in patients who have had an anaphylactic or severe systemic reaction to the administration of human immune globulin. It is contraindicated in IgA-deficient patients with antibodies against IgA and history of hypersensitivity. Severe hypersensitivity reactions may occur with IVIg products, including GAMUNEX-C. In case of hypersensitivity, discontinue GAMUNEX-C infusion immediately and institute appropriate treatment.
Monitor renal function, including blood urea nitrogen (BUN), serum creatinine, and urine output in patients at risk of developing acute renal dysfunction. Hypertension, increased serum viscosity, and hypohematocrit may occur in patients receiving IVIg treatment, including GAMUNEX-C.
There have been reports of noncardiogenic pulmonary edema (nonfusion-related acute lung injury [TRALI]), febrile reaction, and aseptic meningitis in patients administered with IVIg, including GAMUNEX-C.

The high-dose regimen (1g/kg x 1-2 days) is not recommended for individuals with expanded fluid volumes or where fluid volume may be a concern.
Because GAMUNEX-C is made from human blood, it may carry a risk of transmitting infectious agents, e.g., viruses, the variant Creutzfeldt-Jakob disease (vCJD) agent, and theoretically the Creutzfeldt-Jakob disease (CJD) agent.
Do not administer GAMUNEX-C subcutaneously in patients with ITP because of the risk of hemolytic thrombosis.
Periodic monitoring of renal function and urine output is particularly important in patients judged to be at increased risk of developing acute renal failure. Assess renal function, including measurement of BUN and serum creatinine, before the initial infusion of GAMUNEX-C and at appropriate intervals thereafter.
Consider baseline assessment of blood viscosity in patients at risk for hyperviscosity, including those with cryoglobulins, fasting chylomicronemia, markedly high triglycerides (triglycerides), or monoclonal gammopathies. Because of the potentially increased risk of thrombosis.
If bleeding or symptoms of hemolysis are present after an infusion of GAMUNEX-C, perform appropriate laboratory testing for confirmation.
If TRALI is suspected, perform appropriate tests for the presence of antineutrophil antibodies and anti-PLA₂ antibodies in both the product and patient's serum.
After infusion of IgG, the transfusing rate of the various passively transferred antibodies in the patient's blood may yield positive serological testing results, with the potential for misleading interpretation.
In clinical studies, the most common adverse reactions with GAMUNEX-C were headache, fever, chills, hypertension, rash, nausea, and arthralgia. In CIDP, headache, fever, chills, hypertension, rash, nausea, and arthralgia were also reported. In ITP and PIDD, the most common adverse reactions were headache, fever, chills, hypertension, rash, nausea, and arthralgia. In ITP, the most common adverse reactions were headache, fever, chills, hypertension, rash, nausea, and arthralgia. In PIDD, the most common adverse reactions were headache, fever, chills, hypertension, rash, nausea, and arthralgia.
The most serious adverse reactions in clinical studies were pulmonary embolism (PE) in 1 subject with a history of PE on CIDP, an exacerbation of autoimmune disease (AE) in 1 subject on PIDD, and myocarditis in 1 subject that occurred 50 days post-drug infusion and was not considered drug related on ITP.
Please see accompanying GAMUNEX-C full Prescribing Information for complete prescribing details.

Baxter Infusion Rate Guide Introduction

Baxter Infusion Rate Guide Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Baxter Infusion Rate Guide Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Baxter Infusion Rate Guide : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Baxter Infusion Rate Guide : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Baxter Infusion Rate Guide Offers a diverse range of free eBooks across various genres. Baxter Infusion Rate Guide Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Baxter Infusion Rate Guide Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Baxter Infusion Rate Guide, especially related to Baxter Infusion Rate Guide, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Baxter Infusion Rate Guide, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Baxter Infusion Rate Guide books or magazines might include. Look for these in online stores or libraries. Remember that while Baxter Infusion Rate Guide, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Baxter Infusion Rate Guide eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Baxter Infusion Rate Guide full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Baxter Infusion Rate Guide eBooks, including some popular titles.

FAQs About Baxter Infusion Rate Guide Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including

classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Baxter Infusion Rate Guide is one of the best book in our library for free trial. We provide copy of Baxter Infusion Rate Guide in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Baxter Infusion Rate Guide. Where to download Baxter Infusion Rate Guide online for free? Are you looking for Baxter Infusion Rate Guide PDF? This is definitely going to save you time and cash in something you should think about.
