Bettelheim Uses Of Enchantment:

The Uses of Enchantment Bruno Bettelheim, 2010-05-11 Winner of the National Book Award and National Book Critics Circle Award A charming book about enchantment a profound book about fairy tales John Updike The New York Times Book Review Bruno Bettelheim was one of the great child psychologists of the twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development Analyzing a wide range of traditional stories from the tales of Sindbad to The Three Little Pigs Hansel and Gretel and The Sleeping Beauty Bettelheim shows how the fantastical sometimes cruel but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task that of finding meaning for one's life **The Uses of Enchantment**, 1976 Freud's Theory and Its Use in Literary and Cultural Studies Henk de Berg, 2004 Rarely has a single figure had as much influence on Western thought as Sigmund Freud His ideas permeate our culture to such a degree that an understanding of them is indispensable Yet many otherwise well informed students in the humanities labor under misconceptions or lack of knowledge about Freudian theory There are countless introductions to Freudian psychoanalysis but surprisingly none that combine a genuinely accessible account of Freud's ideas with an introduction to their use in literary and cultural studies as this book does It is written specifically for use by advanced undergraduate and graduate students in courses dealing with literary and cultural criticism yet will also be of interest to the general reader The book consists of two parts Part one explains Freud's key ideas focusing on the role his theories of repression conscious and unconscious mental processes sexuality dreams free associations Freudian slips resistance and transference play in psychoanalysis and on the relationship between ego superego and id Here de Berg refutes many popular misconceptions using examples throughout The assumption underlying this account is that Freud offers not simply a model of the mind but an analysis of the relation between the individual and society Part two discusses the implications of Freudian psychoanalysis for the study of literature and culture Among the topics analyzed are Hamlet Heinrich Heine's Lore Ley Freud's Totem and Taboo and its influence on literature the German student movement of the late 1960s and the case of the Belgian pedophile Marc Dutroux and the public reactions to it Existing books focus either on Freudian psychoanalysis in general or on psychoanalytic literary or cultural criticism those in the latter category tend to be abstract and theoretical in nature None of them are suitable for readers who are interested in psychoanalysis as a tool for literary and cultural criticism but have no firm knowledge of Freud's ideas Freu **Fairy Tales and After** Roger Sale, 1978 Explores the enduring fascination of the best known children's books in English Minders of Make-believe Leonard S. Marcus, 2008 Marcus offers this animated history of the visionaries editors illustrators and others whose books have transformed American childhood and American culture Breaking the Magic Spell Jack Zipes, 2002-07-05 Guts and Glory The Making of the American Military Image in Film is the definitive study of the symbiotic relationship between the film industry and the United States armed services Since the first edition was

published nearly two decades ago the nation has experienced several wars both on the battlefield and in movie theatres and living rooms at home Now author Lawrence Suid has extensively revised and expanded his classic history of the mutual exploitation of the film industry and the military exploring how Hollywood has reflected and effected changes in America s image of its armed services This significantly expanded edition has been brought completely up to date and includes many of the most recent war films such as Saving Private Ryan U 571 Pearl Harbor and Windtalkers Lawrence H Suid a military historian is the author of several books and has recently appeared on The History Channel Turner Classic Movies and CNN He lives in Greenbelt Maryland Click here for his website *Critical and Creative Perspectives on Fairy Tales* Vanessa Joosen,2011 An intertextual approach to fairy tale criticism and fairy tale retellings Marcia K Lieberman s Some day my prince will come Bruno Bettelheim s The uses of enchantment Sandra M Gilbert and Susan Gubar s The madwoman in the attic **Why We Watch** Jeffrey H. Goldstein,1998 This collection of essays examines the many facets of violence in contemporary American culture ranging across literature film philosophy photojournalism and other media It offers a consideration of why we are drawn to depictions of violence and why there is a market for violent entertainment

Cultural Theory and Psychoanalytic Tradition David James Fisher,2009-01-01 The culture of psychoanalysis has many traditions and multiple schools of theory and thought This work presents informative and original investigations into three overlapping areas of psychoanalytic tradition the history of psychoanalysis psychoanalytic culture criticism and the application of psychoanalytic methods to the study of history In this carefully crafted evaluation of various authors and subjects Fisher s perceptions are informed by a deep and comprehensive knowledge of the psychoanalytic movement its interaction with the wider context of European cultural and political history and its philosophical and clinical origins In examining the history of the movement Fisher attempts to discover the fundamental inspiration of psychoanalysis by returning to the origins of the discipline Freud is the central figure here but Fisher also looks to the second generation of European analysts including such maverick figures as Lacan and Spielrein and mainstream figures as Fenichel to gain insight into the multidimensional and creative personalities who were drawn to Freud and his ideas In his discussion of psychoanalytic culture criticism Fisher analyzes symbolic meanings and psychological themes from a variety of written works In an analysis of Freud s Civilization and Its Discontents the author argues that the figure of Romain Rolland is pervasive throughout the text as symbol muse stimulus and adversary Reading analytic theory and applying it to personalities and situations from the past allowed historians to address issues of their own inner world and to develop breathtaking possibilities for understanding the past Brilliantly written and historical and critical in method Cultural Theory and Psychoanalytic Tradition offers valuable insights into significant themes and ambiguities in the diverse areas of psychoanalysis Intellectual historians and psychoanalysts will find reliable introductions and springboards for subsequent reflection and research David James Fisher is Clinical Instructor Department of Psychiatry UCLA School of Medicine Senior
