Natural General Intelligence Christopher Summerfield, 2023 Since the time of Turing computer scientists have dreamed of building artificial general intelligence AGI a system that can think learn and act as humans do Over recent years the remarkable pace of progress in machine learning research has reawakened discussions about AGI But what would a generally intelligent agent be able to do What algorithms architectures or cognitive functions would it need To answer these questions we turn to the study of natural intelligence Humans and many other animals have evolved precisely the sorts of generality of function that AI researchers see as the defining hallmark of intelligence The fields of cognitive science and neuroscience have provided us with a language for describing the ingredients of natural intelligence in terms of computational mechanisms and cognitive functions and studied their implementation in neural circuits *Natural General Intelligence* describes the algorithms and architectures that are driving progress in AI research in this language by comparing current AI systems and biological brains side by side In doing so it addresses deep conceptual issues concerning how perceptual memory and control systems work and discusses the language in which we think and the structure of our knowledge It also grapples with longstanding controversies about the nature of intelligence and whether AI researchers should look to biology for inspiration Ultimately Summerfield aims to provide a bridge between the theories of those who study biological brains and the practice of those who are seeking to build artificial brains

African American Leadership and Mentoring Through Purpose, Preparation, and Preceptors Pichon, Henrietta Williams, Mutakabbir, Yoruba, 2021-12-10 The lack of African Americans in leadership roles within the academy creates a real crisis in the leadership pipeline One of the problems could be that the pathways to leadership for African Americans are less visible They can see the end result but may be less clear about how to get there Oftentimes understanding these pathways to leadership is less academic in nature and more informal and or relational Thus the relationship between leadership and mentorship for African Americans is especially important to advancing in the academy Further guidance and understanding of steps to advancement from established African American leaders in the academy is therefore needed *African American Leadership and Mentoring Through Purpose Preparation and Preceptors* provides an exhaustive exploration of leadership and

mentorship through purpose preparation and preceptors This edited book explains how to identify ways that individuals can strengthen their career trajectory determine strategies to employ for career advancement establish lasting and impactful connections with key stakeholders per career aspirations provide guidance for individuals seeking advancement within the academy and explore current theoretical and practical nuances with regard to research literature and application of leadership and mentorship of African Americans in the academy Covering topics such as cross racial mentorship emotionally intelligent leadership and African American leaders this text is ideal for teachers faculty university administrators leaders in education aspiring future leaders researchers academicians and students **Munich Social Science Review (MSSR),**
