Magic in Religion Oliver Faith, AI, 2025-02-14 *Magic in Religion* challenges the conventional separation between magic and religion arguing that magical thinking rituals and supernatural beliefs are deeply interwoven within diverse religious traditions The book explores how elements like exorcisms divination and the use of amulets are integral components of many religious systems not merely superstitious add ons Understanding this interconnectedness provides a more nuanced appreciation of religious phenomena and the human quest for meaning For example the book highlights how healing rituals in indigenous religions demonstrate this integration The book s strength lies in its interdisciplinary approach drawing from anthropology religious studies history and sociology to provide a comprehensive analysis It challenges Western centric views that marginalize non Western religious practices Progressing through foundational definitions of magic religion and ritual the book presents case studies from various cultures culminating in a discussion of implications for understanding religious belief and practice This academic exploration fosters a holistic understanding of human spirituality

and the Supernatural in Medieval English Romance Corinne J. Saunders, 2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket

Religion and Magic in Western Culture Daniel Dubuisson, 2016-04-08 In the history of Western culture theology and science a strict dichotomy exists between religion and magic religion as the intellectually and morally superior one magic as the primitive superstitious demonic other The present work aims to break with this tradition and traces the origin of this dichotomy as well as its many purposes Whose powers does it serve Which interests and ideological stakes does it conceal Moreover the author proposes a new epistemological framework for the study of magisms as well as their rehumanisation and argues for a rehabilitation of their studies

Alfred Loisy and the Making of History of Religions Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions
