Beyond Slavery Explorations Of Race Labor And Citizenship In Postemancipation Societies:

Beyond Slavery Frederick Cooper, Thomas Cleveland Holt, Rebecca J. Scott, 2014-06-30 In this collaborative work three leading historians explore one of the most significant areas of inquiry in modern historiography the transition from slavery to freedom and what this transition meant for former slaves former slaveowners and the societies in which they lived Their contributions take us beyond the familiar portrait of emancipation as the end of an evil system to consider the questions and the struggles that emerged in freedom's wake Thomas Holt focuses on emancipation in Jamaica and the contested meaning of citizenship in defining and redefining the concept of freedom Rebecca Scott investigates the complex struggles and cross racial alliances that evolved in southern Louisiana and Cuba after the end of slavery and Frederick Cooper examines the intersection of emancipation and imperialism in French West Africa In their introduction the authors address issues of citizenship labor and race in the post emancipation period and they point the way toward a fuller understanding of the meanings of freedom *HeinOnline's Beyond Slavery* Frederick Cooper, Thomas Cleveland Holt, Rebecca Jarvis Scott, 2000

American Slavery, Atlantic Slavery, and Beyond Enrico Dal Lago, 2015-12-22 American Slavery Atlantic Slavery and Beyond provides an up to date summary of past and present views of American slavery in international perspective and suggests new directions for current and future comparative scholarship It argues that we can better understand the nature and meaning of American slavery and antislavery if we place them clearly within a Euro American context Current scholarship on American slavery acknowledges the importance of the continental and Atlantic dimensions of the historical phenomenon comparing it often with slavery in the Caribbean and Latin America However since the 1980s a handful of studies has looked further and has compared American slavery with European forms of unfree and nominally free labor Building on this innovative scholarship this book treats the U S peculiar institution as part of both an Atlantic and a wider Euro American world It shows how the Euro American context is no less crucial than the Atlantic one in understanding colonial slavery and the American Revolution in an age of global enlightenment reformism and revolutionary upheavals the Cotton Kingdom's heyday in a world of systems of unfree labor and the making of radical Abolitionism and the occurrence of the American Civil War at a time when nationalist ideologies and nation building movements were widespread **Global**

Labour History Jan Lucassen, 2008 Contains 18 essays on worldwide aspects and comparisons in labour history Covers mainly the period from the beginning of 19th century to 2000 **A Sphinx on the American Land** Peter

Kolchin, 2003-04-01 One reason that the South attracts so much interest is that its history inevitably involves big questions continuity versus change slavery and freedom the meaning of race the formation of national identity the struggle between local and centralized authority Because these issues are central to human experience southern history properly conceived is of more than regional interest In *A Sphinx on the American Land* Peter Kolchin explores three comparative frameworks for the study of the nineteenth century South in an effort to nudge the subject away from provincialism and toward the kind of

global concerns that are already transforming it into one of the most innovative fields of historical research. The volume opens with a comparison between the South and the North or what Kolchin terms the un South. This basic context he explains provides an essential backdrop for understanding the South how one conceptualizes southernness has meaning only in terms of what it is not. Turning to the cohesion and variations among what he calls the many Souths, Kolchin reminds us that there has never been one South or archetypal southerner. Internal distinctions whether geographic, class, religious, or racial ultimately raise the question of whether one can properly speak of the South at all. Finally, Kolchin explores parallels between the South and regions outside the United States or other Souths. He considers a number of ways in which the South can be studied in a broad international setting, paying particular attention to the similarities and differences between the emancipation of southern slaves and Russian serfs. In an eloquent afterword, he ponders the nature and importance of comparative history. Kolchin examines how scholars have approached each of his comparative frameworks and how they might do so in the future, making *A Sphinx on the American Land* at once a work of history and of historiography. Illustrating the ways in which southern history is also American history and world history, this elegant, profound volume proves Kolchin to be one of the stellar southern historians of his generation.

Health and Medicine in the circum-Caribbean, 1800-1968

Juanita De Barros, Steven Palmer, David Wright, 2010-11-16. Health and medicine in colonial environments is one of the newest areas in the history of medicine, but one in which the Caribbean is conspicuously absent. Yet the complex and fascinating history of the Caribbean, borne of the ways European colonialism combined with slavery, indentured migrant labour, and plantation agriculture, led to the emergence of new social and cultural forms which are especially evident in the area of health and medicine. The history of medical care in the Caribbean is also a history of the transfer of cultural practices from Africa and Asia, the process of creolization in the African and Asian diasporas, the perseverance of indigenous and popular medicine, and

the emergence of distinct forms of western medical professionalism science and practice This collection which covers the French Hispanic Dutch and British Caribbean explores the cultural and social domains of medical experience and considers the dynamics and tensions of power The chapters emphasize contestations over forms of medicalization and the controls of public health and address the politics of professionalization not simply as an expression of colonial power but also of the power of a local elite against colonial or neo colonial control They pay particular attention to the significance of race and gender focusing on such topics as conflicts over medical professionalization control of women s bodies and childbirth and competition between European and Indigenous healers and healing practices Employing a broad range of subjects and methodological approaches this collection constitutes the first edited volume on the history of health and medicine in the circum Caribbean region and is therefore required reading for anyone interested in the history of colonial and post colonial medicine

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and

process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire **Rethinking American Emancipation** William A. Link, James J. Broomall, 2016 This volume unpacks the long history and varied meanings of the emancipation of American slaves
