Written by famed journalist and adventurer Lowell Thomas, the book recounts his daring journey through Afghanistan in the early 1920s, an era when few Westerners ventured beyond the fabled Khyber Pass. Thomas offers vivid descriptions of tribal lands, remote mountain settlements, and royal courts, capturing the beauty, hardship, and political intrigue of a land between empires. At the center of his account is King Amanullah, the young Afghan monarch who sought to modernize his country and assert its independence amidst the crumbling British and Russian imperial orders. Thomas documents his audience with Amanullah and his observations of Afghan life with characteristic flair and a reporter's eye for detail. Combining adventure, anthropology, and political commentary, *Beyond Khyber Pass* is both a historical document and a thrilling read, perfect for anyone interested in the Great Game, early 20th-century Afghanistan, or the romantic age of exploration.

Repression, Resistance, and Women in Afghanistan Hafizullah Emadi, 2002-08-30 Afghan women have faced an exhaustive struggle in the battle to change their status and improve their situation. Emadi takes a long look at the role of development and modernization policies implemented by the state in the pre and post-Soviet eras under the Taliban and beyond. He finds that such policies have failed to bring about much needed change and improvement for women. Modernization strategies benefited only a small segment of urban women and left the plight of rural women unchanged. Although a small segment of middle and upper-class women organized themselves and fought to bring about changes in their status and to end gender inequality, their efforts alone did not meet with much success. Islamic orthodoxy and orthopraxy in the Taliban era restricted women's freedom of movement, access to education, and medical care. Using personal accounts not readily available to researchers or scholars, Emadi explores the diverse factors that contributed to women's oppression both at home and in society. This study provides a detailed analysis of state policies toward women's emancipation within the context of a traditional Islamic society. It chronicles the course of the women's movement and women's organizations still active in the political arena and puts forth an alternative plan to involve women in the reconstruction process in both urban and rural areas.

Dynamics of Political Development in Afghanistan H. Emadi, 2010-10-18 This book examines how dependent development and struggles for power within and outside the state apparatus led to the formation of alliances with imperial powers and how the latter used these alliances to manipulate political development in Afghanistan to their own advantage.

cultural space that would overcome national cultural and linguistic differences in the name of an anticapitalist anti imperialist and later antifascist aesthetic At the heart of this story stands the literary arm of the Communist International or Comintern anchored in Moscow but reaching Baku Beijing London and parts in between Its mission attracted diverse networks of writers who hailed from Turkey Iran India and China as well as the Soviet Union and Europe Between 1919 and 1943 they sought to establish a new world literature to rival the capitalist republic of Western letters Eurasia without Borders revises standard accounts of global twentieth century literary movements The Eurocentric discourse of world literature focuses on transatlantic interactions largely omitting the international left and its Asian members Meanwhile postcolonial studies have overlooked the socialist aligned world in favor of the clash between Western European imperialism and subaltern resistance Clark provides the missing pieces illuminating a distinctive literature that sought to fuse European and vernacular Asian traditions in the name of a post imperialist culture Socialist literary internationalism was not without serious problems and at times it succumbed to an orientalist aesthetic that rivaled any coming from Europe Its history is marked by both promise and tragedy With clear eyed honesty Clark traces the limits compromises and achievements of an ambitious cultural collaboration whose resonances in later movements can no longer be ignored *Quarterly Review of Military Literature* ,1929 *Kabul: a History 1773-1948* May Schinasi,2016-10-05 Through years of neglect deliberate modernization and the effect of decades of war Kabul s architectural history has virtually disappeared By meticulous use of all available records including written works photographs films and oral reminiscences Kabul A History 1773 1948 provides a remarkably complete and unsurpassed account of the city s history as seen through its built environment from the pleasure gardens of the 16th and 17th century Mughals to the efforts of the Saduza i and Muhammadza i rulers of the 18th 20th centuries to turn this one time resort town into a thriving capital city at the center of a country of enormous diversity Thoroughly documented and well illustrated the book reveals the rich cultural legacy of a city of global importance
