Beyond Smart Cities How Cities Network Learn And Innovate:

Beyond Smart Cities Tim Campbell, 2013-07-03 The promise of competitiveness and economic growth in so called smart cities is widely advertised in Europe and the US The promise is focussed on global talent and knowledge economies and not on learning and innovation But to really achieve smart cities that is to create the conditions of continuous learning and innovation this book argues that there is a need to understand what is below the surface and to examine the mechanisms which affect the way cities learn and then connect together This book draws on quantitative and qualitative data with concrete case studies to show how networks already operating in cities are used to foster and strengthen connections in order to achieve breakthroughs in learning and innovation Going beyond smart cities means understanding how cities construct convert and manipulate relationships that grow in urban environments Cities discussed in this book Amman Barcelona Bilbao Charlotte Curitiba Juarez Portland Seattle and Turin illuminate a blind spot in the literature Each of these cities has achieved important transformations and learning has played a key role one that has been largely ignored in academic circles and practice concerning competitiveness and innovation

Handbook of Research on Entrepreneurial Development and Innovation Within Smart Cities Carvalho, Luisa Cagica, 2017-01-25 While the population continues to grow and expand many people are now making their homes in cities around the globe With this increase in city living it is becoming vital to create intelligent urban environments that efficiently support this growth and that simultaneously provide friendly progressive environments to both businesses and citizens alike The Handbook of Research on Entrepreneurial Development and Innovation Within Smart Cities is a comprehensive reference source that discusses social economic and environmental issues surrounding the evolution of smart cities It provides insightful viewpoints on a range of topics such as entrepreneurial ecosystems competitive tourism city efficiency corporate social responsibility and smart destinations This publication is ideal for all researchers academics and practitioners that wish to expand their knowledge on the emerging trends and topics involving smart cities

Smart Cities Anna Visvizi, Hanna Godlewska-Majkowska, 2024-08-26 This book seeks to identify and to examine factors and mechanisms underlying the growth and development of smart cities It is commonplace to discuss smart cities through the lens of advances in ICT The resulting overemphasis on what is technologically possible downplays what is politically socially and economically feasible This book by analysing the smart city through a variety of perspectives offers a more comprehensive insight into and understanding of the complex and the open ended nature of the growth and development of a smart city A solid conceptual framework is developed and employed throughout the chapters and a selection of case studies from Europe Asia and the Arab Peninsula grants the readers a hands on perspective of the matters discussed The chapters included in this book address a set of questions including How do the twin processes of digitalization and smartification unfold in the context of the smart city agenda How do these processes relate to the concepts of smart city 1 0 2 0 3 0 and 4 0 In which ways have the spatial aspects of city functioning been

influenced by the intrusion of ICT In which ways do the same processes contribute to the attainment of the UN Sustainable Development Goals SDGs What are the implications of smartification and the emergence of smart organizations public private and voluntary for the spatial development of smart cities Do ICT and its application in the city space boost the processes of revitalization and how does ICT influence the process of gentrification To what extent and how does the intrusion of ICT enhanced tools and applications in the city space impact on a city s relationship with its broader territorially defined context Are the administrative borders and divisions inherent in the fabric of a city becoming less more porous How should urban sprawl be conceived in the context of the smart city debate This book will have a broad appeal to academics students and policy makers with interests in urban planning sustainable development cities economics technology sociology urban studies digitalization SDGs wellbeing and resilience

cities **Smart Urbanism** Simon Marvin, Andrés Luque-Ayala, Colin McFarlane, 2015-12-14 Smart Urbanism SU the rebuilding of cities through the integration of digital technologies with buildings neighbourhoods networked infrastructures and people is being represented as a unique emerging solution to the majority of problems faced by cities today SU discourses enacted by technology companies national governments and supranational agencies alike claim a supremacy of urban digital technologies for managing and controlling infrastructures achieving greater effectiveness in managing service demand and reducing carbon emissions developing greater social interaction and community networks providing new services around health and social care etc Smart urbanism is being represented as the response to almost every facet of the contemporary urban question This book explores this common conception of the problematic of smart urbanism and critically address what new capabilities are being created by whom and with what exclusions how these are being developed and contested where is this happening both within and between cities and with what sorts of social and material consequences The aim of the book is to identify and convene a currently fragmented and disconnected group of researchers commentators developers and users from both within and outside the mainstream SU discourse including several of those that adopt a more critical perspective to assess what problems of the city smartness can address The volume provides the first internationally comparative assessment of SU in cities of the global north and south critically evaluates whether current visions of SU are able to achieve their potential and then identifies alternative trajectories for SU that hold radical promise for reshaping cities

CORP 2012 - Proceedings/Tagungsband Manfred Schrenk, Peter Zeile, Vasily V. Popovich, Pietro Elisei, 2012 RE MIXING THE CITY Towards Sustainability and Resilience There is nothing permanent except change Heraclitus Cities worldwide are facing rapid social economic environmental technological and cultural changes such as rapid urbanisation aging of society security issues housing emergency new solutions on mobility integration of immigrants food and water shortage etc Especially in times of economic crisis and demographic changes in cities it is necessary to think about how to best handle what we have and therefore RE MIXING THE CITY is a challenge to manage and re combine the elements which make our modern cities in order to better respond to change Smart City Citizenship Igor Calzada, 2020-10-23 Smart City Citizenship provides rigorous analysis for academics and policymakers on the experimental data driven and participatory processes of smart cities to help integrate ICT related social innovation into urban life Unlike other smart city books that are often edited collections this book focuses on the business domain grassroots social innovation and AI driven algorithmic and techno political disruptions also examining the role of citizens and the democratic governance issues raised from an interdisciplinary perspective As smart city research is a fast growing topic of scientific inquiry and evolving rapidly this book is an ideal reference for a much needed discussion The book drives the reader to a better conceptual and applied comprehension of smart city citizenship for democratised hyper connected virialised post COVID 19 societies In addition it provides a whole practical roadmap to build smart city citizenship inclusive and multistakeholder interventions through

intertwined chapters of the book Users will find a book that fills the knowledge gap between the purely critical studies on smart cities and those further constructive and highly promising socially innovative interventions using case study fieldwork action research empirical evidence drawn from several cities that are advancing and innovating smart city practices from the citizenship perspective Utilises ongoing action research fieldwork comparative case studies for examining current governance issues and the role of citizens in smart cities Provides definitions of new key citizenship concepts along with a techno political framework and toolkit drawn from a community oriented perspective Shows how to design smart city governance initiatives projects and policies based on applied research from the social innovation perspective Highlights citizen s perspective and social empowerment in the AI driven and algorithmic disruptive post COVID 19 context in both transitional and experimental frameworks

Digital (In)justice in the Smart City Debra Mackinnon,Ryan Burns,Victoria Fast,2022-12-21 In the contemporary moment smart cities have become the dominant paradigm for urban planning and administration which involves weaving the urban fabric with digital technologies Recently however the promises of smart cities have been gradually supplanted by recognition of their inherent inequalities and scholars are increasingly working to envision alternative smart cities Informed by these pressing challenges Digital In Justice in the Smart City foregrounds discussions of how we should think of and work towards urban digital justice in the smart city It provides a deep exploration of the sources of injustice that percolate throughout a range of sociotechnical assemblages and it questions whether working towards more just sustainable liveable and egalitarian cities requires that we look beyond the limitations of smartness altogether The book grapples with how geographies impact smart city visions and roll outs on the one hand and how unjust geographies are produced in smart pursuits on the other Ultimately Digital In Justice in the Smart City envisions alternative cities smart or merely digital and outlines the sorts of roles that the commons utopia and the law might take on in our conceptions and realizations of better cities

Sustainability Citizenship in Cities Ralph Horne,John Fien,Beau B. Beza,Anitra Nelson,2016-04-28 Urban sustainability citizenship situates citizens as social change agents with an ethical and self interested stake in living sustainably with the rest of Earth Such citizens not only engage in sustainable household practices but respect the importance of awareness raising discussion and debates on sustainability policies for the common good and maintenance of Earth s ecosystems Sustainability Citizenship in Cities seeks to explain how sustainability citizenship can manifest in urban built environments as both responsibilities and rights Contributors elaborate on the concept of urban sustainability citizenship as a participatory work in progress with the aim of setting its practice firmly on the agenda This collection will prompt practitioners and researchers to rethink contemporary mobilisations of urban citizens challenged by various environmental crises such as climate change in various socio economic settings This book is a valuable resource for students academics and professionals working in various disciplines and across a range of interdisciplinary fields such as urban environment and planning citizenship as practice environmental sociology contemporary politics and
