Beyond Territoriality Beyond Territoriality:

Beyond Territoriality Gunther Handl, Joachim Zekoll, Peer Zumbansen, 2012-10-23 Taking extraterritoriality the traditional touchstone for the state centered allocation of transnational legal authority as its conceptual starting point the book traces the evolution of transnational legal authority in the course of globalization It examines various representative transnational legal scenarios covering issues of inter alia the environment foreign trade and investment corporate governance criminal justice cyberspace and arms control The end result is a complex yet nuanced picture of today's global governance architecture in which transnational legal authority may be exercised unilaterally or multilaterally be minimally coordinated internationally or formally institutionalized reflect a traditional state centered a supra national or privatized approach and be rooted in a single or a multiple layered normative system *Territory Beyond Terra* Kimberley Peters, Philip

Steinberg, Elaine Stratford, 2018-03-08 At the root of our understanding of territory is the concept of terra land a surface of fixed points with stable features that can be calculated categorised and controlled But what of the many spaces on Earth that defy this simplistic characterisation Oceans in which places are continuously re formed Air that can never be fully contained Watercourses that obtain their value by transcending boundaries This book examines the politics of these spaces to shed light on the challenges of our increasingly dynamic world Through a focus on the planet's elements environments and edges the contributors to *Territory beyond Terra* extend our understanding of territory to the dynamic contentious spaces of contemporary politics **Beyond Territory and Scarcity** Quentin Gausset, Michael Anthony Whyte, Torben

Birch-Thomsen, 2005 In this volume ten anthropologists and geographers critically address traditional Malthusian discourses in essays that attempt to move beyond territory and scarcity **Beyond Territory** Harald Bathelt, Maryann Feldman, Dieter

F. Kogler, 2012-03-29 The main purpose of the book is to discuss new trends in the dynamic geography of innovation and argue that in an era of increasing globalization two trends seem quite dominant rigid territorial models of innovation and localized configurations of innovative activities The book brings together scholars who are working on these topics Rather than focusing on established concepts and theories the book aims to question narrow explanations rigid territorializations and simplistic policy frameworks it provides evidence that innovation while not exclusively dependent on regional contexts can be influenced by place specific attributes The book will bring together new empirical and conceptual work by an interdisciplinary group of leading scholars from areas such as economic geography innovation studies and political science Based on recent discussions surrounding innovation systems of different types it aims to synthesize state of the art know how and provide new perspectives on the role of innovation and knowledge creation in the global political economy **Cinema**

Beyond Territory Stephen Groening, 2014-12-01 In this groundbreaking exploration of in flight cinema Stephen Groening traces the history of this transnational cinematic practice At once a history of exhibition and an inquiry into changing forms of media and spectatorship this interdisciplinary book opens up new directions in the history of cinema visibility travel and

cultural geography **Ocean Governance (Beyond) Borders** Kimberley Peters, Jennifer Turner, 2025-02-14 This Open Access book *Ocean Governance Beyond Borders* is concerned with the persistence of bordering in ocean space and the possibilities that might arise if we think beyond borders for modes of oceanic management engaging the ocean's fluid physicality and the mobile human and more than human life entangled with it. At a moment where ocean governance is a pressing topic amongst academics, policy makers, governments and non-governmental agencies alike, this book takes on one of the most overlooked but central devices underscoring many modes of oceanic management: the border. Uniquely combining contemporary border scholarship with cutting edge ocean governance research, this book tackles themes ranging from biodiversity conservation and asylum regulations to shipping management measures, tourism and the growing blue economy. This edited volume hence explores varied bordering practices whilst also addressing the common sense with which bordering is deployed at sea, questioning and problematising its function and efficacy. Throughout 12 carefully curated chapters, authors ask: What borders are present in the seas and oceans, where and why? In doing this, the book offers readers a simple provocation: Do we need borders? And can we govern differently? *English law on the high seas and beyond the realm* Sir Francis Taylor Piggott, 1907

Beyond Sovereignty David J. Elkins, 1995 An undergraduate level text integrating scientific and statistical data with anecdotes and personal experiences to identify stressful situations, understand human responses to them and choose ways of dealing with the emotional and psychological arousal of stress. Annotation copyright by Book News Inc, Portland, OR

Europe and Beyond Sir John Arthur Ransome Marriott, 1921
