

The background of the entire image is a photograph of a large container ship docked at a port. The ship is filled with colorful shipping containers (red, blue, and white) and is positioned in the lower half of the frame. In the background, there are green hills and a body of water. Overlaid on this is a large, faded, semi-transparent image of two men in white shirts and hats, carrying a long wooden pole across their shoulders. This image is positioned in the upper half of the frame, behind the title text.

BEYOND THE BIG DITCH

Politics, Ecology, and Infrastructure at the Panama Canal

Ashley Carse

Beyond The Big Ditch

JA Banks

Beyond The Big Ditch:

Beyond the Big Ditch Ashley Carse, 2014-10-24 A historical and ethnographic study of the conflict between global transportation and rural development as the two intersect at the Panama Canal In this innovative book Ashley Carse traces the water that flows into and out from the Panama Canal to explain how global shipping is entangled with Panama's cultural and physical landscapes By following container ships as they travel downstream along maritime routes and tracing rivers upstream across the populated watershed that feeds the canal he explores the politics of environmental management around a waterway that links faraway ports and markets to nearby farms forests cities and rural communities Carse draws on a wide range of ethnographic and archival material to show the social and ecological implications of transportation across Panama The Canal moves ships over an aquatic staircase of locks that demand an enormous amount of fresh water from the surrounding region Each passing ship drains 52 million gallons out to sea a volume comparable to the daily water use of half a million Panamanians Infrastructures like the Panama Canal Carse argues do not simply conquer nature they rework ecologies in ways that serve specific political and economic priorities Interweaving histories that range from the depopulation of the U S Canal Zone a century ago to road construction conflicts and water hyacinth invasions in canal waters the book illuminates the human and nonhuman actors that have come together at the margins of the famous trade route 2014 marks the 100th anniversary of the Panama Canal Beyond the Big Ditch calls us to consider how infrastructures are materially embedded in place producing environments with winners and losers

Beyond the Lab and the Field

Eike-Christian Heine, Martin Meiske, 2022-04-19 Beyond the Lab and the Field analyzes infrastructures as intense sites of knowledge production in the Americas Europe and Asia since the late nineteenth century Moving beyond classical places known for yielding scientific knowledge chapters in this volume explore how the construction and maintenance of canals highways dams irrigation schemes the oil industry and logistic networks intersected with the creation of know how and expertise Referred to by the authors as scientific bonanzas such intersections reveal opportunities for great wealth but also distress and misfortune This volume explores how innovative technologies provided research opportunities for scientists and engineers as they relied on expertise to operate which resulted in enormous profits for some But like the history of any gold rush the history of infrastructure also reveals how technologies of modernity transformed nature disrupting communities and destroying the local environment Focusing not on the victory march of science and technology but on ambivalent change contributors consider the role of infrastructures for ecology geology archaeology soil science engineering ethnography heritage and polar exploration Together they also examine largely overlooked perspectives on modernity the reliance of infrastructure on knowledge and infrastructures as places and occasions that inspired a greater understanding of the natural world and the technologically made environment

upward beyond the brim Ruby L. Agnir, 2012-08-31 As Ruby Agnir continues to be spiritually inspired by events in her life she writes down every thought or paragraph with the intent of

sharing it with others This book is a collection of those ideas some serious some lyrical some wild mostly spiritual all utterly human The title is self explanatory Like coffee poured into a cup to overflowing the thoughts go beyond the brim but rather than drop down because of gravity they go upward unfettered rising like a vapor and blending with the space above They are the author s Thoughts outside the Box These are Ruby Agnir s beliefs concepts notions and inferences Gleaning from readings and experiences and collecting from books from newspapers from the silver screen from the Internet she has chosen those that are relevant to her way of thinking rolled them up into a ball and stamped it with her own identifying mark

Erased Marixa Lasso,2019-02-25 The Panama Canal s untold history from the Panamanian point of view Sleuth and scholar Marixa Lasso recounts how the canal s American builders displaced 40 000 residents and erased entire towns in the guise of bringing modernity to the tropics The Panama Canal set a new course for the modern development of Central America Cutting a convenient path from the Atlantic to the Pacific oceans it hastened the currents of trade and migration that were already reshaping the Western hemisphere Yet the waterway was built at considerable cost to a way of life that had characterized the region for centuries In *Erased* Marixa Lasso recovers the history of the Panamanian cities and towns that once formed the backbone of the republic Drawing on vast and previously untapped archival sources and personal recollections Lasso describes the canal s displacement of peasants homeowners and shop owners and chronicles the destruction of a centuries old commercial culture and environment On completion of the canal the United States engineered a tropical idyll to replace the lost cities and towns a space miraculously cleansed of poverty unemployment and people which served as a convenient backdrop to the manicured suburbs built exclusively for Americans By restoring the sounds sights and stories of a world wiped clean by U S commerce and political ambition Lasso compellingly pushes back against a triumphalist narrative that erases the contribution of Latin America to its own history

Earth Shapers Maxim Samson,2025-08-07 A riposte to the idea that geography is destiny FINANCIAL TIMES Samson demonstrates how we are not always prisoners of geography but increasingly its masters LEWIS DARTNELL This is a book that reshapes our story of global human geography DANNY DORLING Accessible and erudite this is an original look at the geography of connection LEWIS BASTON Mountains meridians rivers and borders these are some of the features that carve up the world on our maps and in our minds But geography is far less set in stone than we might believe and over time we have become experts at reshaping our surroundings From the Qhapaq an South America s Great Road and the Panama Canal to Mozambique s railways and Korea s sacred Baekdu daegan mountain range Samson explores how we mould the world around us And how as we etch our needs onto the natural landscape we alter the course of history An immense work of cultural geography touching on ecology sociology history and politics *Earth Shapers* argues that far from being constrained by geography we are instead its creators

Has It Come to This? J.P. Sapinski,Holly Jean Buck,Andreas Malm,2020-11-13 Geoengineering is the deliberate and large scale intervention in the Earth s climate system in an attempt to mitigate the adverse effects of global warming Now

that a climate emergency is upon us claims that geoengineering is inevitable are rapidly proliferating How did we get into this What options make it onto the table Which are left out Whom does geoengineering serve These are some of the questions that the thinkers contributing to this volume are exploring **A Guide to Spatial History** Konrad Lawson,Riccardo Bavaj,Bernhard Struck,2022-01-07 This guide provides an overview of the thematic areas analytical aspects and avenues of research which together form a broader conversation around doing spatial history Spatial history is not a field with clearly delineated boundaries For the most part it lacks a distinct unambiguous scholarly identity It can only be thought of in relation to other typically more established fields Indeed one of the most valuable utilities of spatial history is its capacity to facilitate conversations across those fields Consequently it must be discussed in relation to a variety of historiographical contexts Each of these have their own intellectual genealogies institutional settings and conceptual path dependencies With this in mind this guide surveys the following areas territoriality infrastructure and borders nature environment and landscape city and home social space and political protest spaces of knowledge spatial imaginaries cartographic representations and historical GIS research **Water for All** Sarah T. Hines,2021-12-14 Water for All chronicles how Bolivians democratized water access focusing on the Cochabamba region which is known for acute water scarcity and explosive water protests Sarah T Hines examines conflict and compromises over water from the 1870s to the 2010s showing how communities of water users increased supply and extended distribution through collective labor and social struggle Analyzing a wide variety of sources from agrarian reform case records to oral history interviews Hines investigates how water dispossession in the late nineteenth century and reclaimed water access in the twentieth and twenty first centuries prompted shaped and strengthened popular and indigenous social movements The struggle for democratic control over water culminated in the successful 2000 Water War a decisive turning point for Bolivian politics This story offers lessons for contemporary resource management and grassroots movements about how humans can build equitable democratic and sustainable resource systems in the Andes Latin America and beyond **Deep Cut** Christine Keiner,2020-08 HISTORY Modern 20th Century SCIENCE History TECHNOLOGY ENGINEERING History **Slow Disturbance** Rafico Ruiz,2021-03-22 From the late nineteenth through most of the twentieth century the evangelical Protestant Grenfell Mission in Newfoundland and Labrador Canada created a network of hospitals schools orphanages stores and industries with the goal of bringing health and organized society to settler fisherfolk and Indigenous populations This infrastructure also served to support resource extraction of fisheries off Labrador s coast In Slow Disturbance Rafico Ruiz engages with the Grenfell Mission to theorize how settler colonialism establishes itself through what he calls infrastructural mediation the ways in which colonial lifeworlds subjectivities and affects come into being through the creation and maintenance of infrastructures Drawing on archival documents maps interviews with municipal officials teachers and residents as well as his field photography Ruiz shows how the mission s infrastructural mediation from its attempts to restructure the local economy to the aerial surveying and

mapping of the coastline responded to the colony's environmental conditions in ways that expanded the bounds of the settler frontier. By tracing the mission's history and the mechanisms that enabled its functioning, Ruiz complicates understandings of mediation and infrastructure while expanding current debates surrounding settler colonialism and extractive capitalism.
