Buddha Radiant Awakening:

Buddha Jackie Menzies, Art Gallery of New South Wales, 2001 Jackie Menzies provides illustrations of paintings sculpture metalwork manuscripts mandalas and textiles with images that range from early Indian sculptures to Japanese and Chinese scrolls from a Tibetan tangka to a contemporary set of panels created from digital media Each image is explained and longer essays by authorities in the field discuss such topics as the life of Buddha Buddhist cosmology Buddha Lands and Buddhas of the past present and future *The Buddha's Gospel* Lindsay Falvey, 2002 Described as unique and a great service to understanding this book is intended for three groups Western Buddhists that bulk of the West that have no religious affiliation yet know there is something more to life and Buddhists in Asia who follow the encounter of the dharma with the West It highlights the pervasive similarities in the teachings of Jesus and the Buddha as they were probably originally presented In its six chapters and appendix it compares the two great teachers the Buddha and Jesus briefly charts the process by which experts have produced words readily attributed to Jesus and presents a Buddhist imitation of these words based on the hypothetical Sayings of Jesus It then considers congruence between the Buddha s and Jesus teachings before offering both Buddhist and Christian interpretations An appendix re presents the Buddhist imitation of Jesus words as a continuous text Dr Falvey introduces his work Jesus speaking the Buddha s words exudes audacity and ignorance yet this work essentially wrote itself as a product of my socialization a modicum of Christian theological study and its explication through three decades of casual association with Thai Buddhism Differences between the two traditions such as Christianity relying on a God while Buddhism denies the existence of a God proved themselves facile upon consideration of the metaphorical intent of teachings of both traditions 1000 Buddhas of Genius T.W. Rhys Davids Ph.D. LLD., Victoria Charles, 2014-11-24 All living beings are Buddhas and have wisdom and virtue within them Buddha ranks among the most often depicted holy figures of the world perhaps appearing more than Christ a subject widely treated by Western artists Venerated in all the nations of Asia and even beyond his image took form along the Silk Road the birthplace of many schools of Buddhism Indeed the Buddhist religion recognises many Buddhas representing various traditions such as Buddhism of the Ancient Teaching Theravada of the Great Vehicle Mahayana and Tantric Buddhism Vajrayana A figure adored by all Buddha has been depicted in every art form sculpture often of monumental size like the now destroyed Buddhas of Bamiyan painting and above all in countless cave murals such as those of Ajanta in India or Dunhuang in China Perfect for all those passionate about Asian art from neophytes to Buddhists this fascinating work invites the reader to discover or rediscover Buddha his history his codes but also his innumerable faces through one thousand representations selected from among the most beautiful works held in the world s greatest museums The Lotus and the Lion J. Jeffrey Franklin, 2011-03-15 Buddhism is indisputably gaining prominence in the West as is evidenced by the growth of Buddhist practice within many traditions and keen interest in meditation and mindfulness In *The Lotus and the Lion* J. Jeffrey Franklin traces the historical and cultural

origins of Western Buddhism showing that the British Empire was a primary engine for curiosity about and then engagement with the Buddhisms that the British encountered in India and elsewhere in Asia As a result Victorian and Edwardian England witnessed the emergence of comparative religious scholarship with a focus on Buddhism the appearance of Buddhist characters and concepts in literary works the publication of hundreds of articles on Buddhism in popular and intellectual periodicals and the dawning of syncretic religions that incorporated elements derived from Buddhism In this fascinating book Franklin analyzes responses to and constructions of Buddhism by popular novelists and poets early scholars of religion inventors of new religions social theorists and philosophers and a host of social and religious commentators Examining the work of figures ranging from Rudyard Kipling and D H Lawrence to H P Blavatsky Thomas Henry Huxley and F Max Müller Franklin provides insight into cultural upheavals that continue to reverberate into our own time Those include the violent intermixing of cultures brought about by imperialism and colonial occupation the trauma and self reflection that occur when a Christian culture comes face to face with another religion and the debate between spiritualism and materialism *The Lotus and the Lion* demonstrates that the nineteenth century encounter with Buddhism subtly but profoundly changed Western civilization forever

Museums as Assemblage Jasmin Pfefferkorn, 2023-07-31 *Museums as Assemblage* offers a new way of thinking about the dynamism of art museums Using the concept of assemblage this book unpacks relations between visitors artists museum staff and the museum's nonhuman components providing an analytical framework that celebrates the complexity of museums today It takes the Museum of Old and New Art Mona in Tasmania as its primary case study but situates it in global trends by drawing on a range of examples from art museums across Australia New Zealand Europe and East Asia It provides insight into how perceptions around engagement are enabled and constrained in the context of different museums and highlights the necessity of an analytical framework that accommodates the complexity and multiplicity of the contemporary museum landscape With an emphasis on visitor experience and curatorial strategy the book is valuable for students and researchers in museum studies art history curatorial studies and cultural studies
